

# SAMSUNG ELECTRONICS Co., Ltd.

## 2023 Interim Business Report

For the quarter ended March 31, 2023

Certain statements in the document, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements." Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. A detailed discussion of risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included in our financial reports available on our website.

See, also, "Note on Forward-Looking Statements" in preamble of "II. Business Overview".

We, Jong-hee Han and Hark-kyu Park, as a CEO and the executive in charge of reporting, respectively, certify that we have thoroughly reviewed the interim business report of Samsung Electronics Co., Ltd. for the three-month period ended March 31, 2023.

Based on our knowledge, this report does not contain any untrue statements of material facts or omit any material facts; and it does not contain any statements that are intentionally misleading for the users of the information in the report.

We confirm that Samsung Electronics operates the Internal Controls over Financial Reporting, as defined in Article 8 of the Act on External Audit of Stock Companies.

Date: May 15, 2023

Jong-hee Han

Vice Chairman and CEO

Samsung Electronics Co., Ltd.

?

Executive responsible for reporting: Hark-kyu Park f i

President and CFO

Samsung Electronics Co., Ltd.

# I. Corporate Overview

## 1. Overview

Pursuant to the reporting guidelines set forth by the Financial Supervisory Service (FSS) of South Korea, the Overview section reported in the half-year and full-year business reports, is not included in the 1Q and 3Q reports.

## 2. Company history

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Company history section, reported in the full-year business report, is not included in the interim reports.

## 3. Changes in paid-in capital

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Changes in paid-in capital section, reported in the full-year business report, is not included in the interim reports.

## 4. Stock information

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Stock information section, reported in the half-year and full-year business reports, is not included in the 1Q and 3Q reports.

## 5. Changes to Articles of Incorporation

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Changes to Articles of Incorporation section, reported in the half-year and full-year business reports, is not included in the 1Q and 3Q reports.

## II. Businesses Overview

### *Note on forward-looking statements*

This report includes forward-looking statements that relate to future events and can be generally identified by phrases containing words such as "believes," "expects," "anticipates," "foresees," "forecasts," "estimates" or other words or phrases of similar meaning. These forward-looking statements are not guarantees of future performance and may involve known and unknown risks, uncertainties and other factors that may affect our actual results, performance, achievements or financial position, making them materially different from the actual future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Unless otherwise specified, all data presented in this report is from our consolidated financial statements.

Uncertain events that could positively or negatively affect the Company's management condition and financial performance include, but are not limited to:

- Trends of financial markets domestically and abroad, including changes in exchange rates and interest rates
- The Company's strategic decision making, including disposals and purchases of businesses
- Unexpected sudden changes in core businesses such as CE, IM, Semiconductor, DP and Harman
- Other changes domestically and abroad that can affect management condition and financial performance

The Company assumes no obligation to revise or update this report to reflect risks or uncertainties that arise after the reporting period.

#### **(Responsibility statement)**

In accordance with article 3(2) c) of the Transparency Law (Luxembourg), Jong-hee Han and Hark-kyu Park, as a CEO and the executive in charge of reporting confirm that, to the best of their knowledge, the consolidated financial statements and the statutory non-consolidated financial statements prepared in accordance with the applicable set of accounting standards give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included in the consolidation taken as a whole and that the management report includes a fair review of the development and performance of the business and the position of the Company and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

### **1. Overview**

In addition to our headquarters in Korea, Samsung Electronics consists of 230 subsidiaries across the world responsible for sales and production, which include 9 regional headquarters for the Device eXperience (DX) Division, 5 regional headquarters for the Device Solutions (DS) Division, and subsidiaries of Samsung Display (SDC) and Harman.

The Company's business divisions are organized in a two-pronged framework consisting of finished products and component businesses. The finished product business consists of the DX Division, which is responsible for the production and sales of TVs, monitors, refrigerators, washing machines, air conditioners, HHPs, which includes smartphones, as well as network systems, and computers. The component business consists of the DS Division, which manufactures and sells DRAM, NAND flash, and mobile APs, and SDC, which manufactures and sells display panels (DPs), including mobile OLED panels. Harman (acquired in 2017) manufactures and sells products such as Digital cockpits, telematics, and speakers.

In December 2021, the Company merged and restructured the CE and IM Divisions to form the DX Division and renamed the Mobile Communications Business to the Mobile eXperience (MX) Business. Also, SDC and the DS Division have been separated to align with the corporate organizational structure.

 See C. Current status of each division and D. Financial summary by organization in 『7. Other information』 for more details about each Division.

The Company's corporate headquarters—which oversees the DX and DS Divisions—as well as 34 consolidated subsidiaries are located in Korea. The Company's corporate headquarters is divided along Divisions and/or Businesses, which are located in Suwon, Gumi, Gwangju, Giheung, Hwaseong, Pyeongtaek, etc. The Company's unlisted domestic subsidiaries include Samsung Display for display panel production, Samsung Electronics Sales for domestic retail sales, Samsung Electronics Service for after-sales services, and Samsung Electronics Logitech for logistics.

We have 196 unlisted overseas subsidiaries for product manufacturing, sales, and R&D, with locations in the US, Europe/CIS, Middle East/Africa, and Asia, etc.

We have 43 subsidiaries in Americas, including SEA (New Jersey; responsible for the sales of finished products including TV and HHPs), SII (California; manufacturing of TVs), SSI (California; sales of semiconductors and DPs), SAS (Texas; manufacturing of semiconductor products), SEDA (Brazil; manufacturing of multiple finished products) and Harman (Connecticut; automotive components) in the US.

In Europe and CIS, we operate 71 subsidiaries. These include SEUK (UK), SEG (Germany), SEF (France), SEI (Italy), SERC (Russia) for sales of finished products; SEH (Hungary) and SERK (Russia) for manufacturing TVs, and SEPM (Poland) for manufacturing home appliances.

We have 20 subsidiaries in Middle East and Africa, including SGE (UAE) and SSA (South Africa) for sales of finished products and SEEG (Egypt) and SSAP (South Africa) for manufacturing TVs.

We have 32 subsidiaries in Asia (ex China), including SESP (Singapore), SEAU (Australia), SEPCO (Philippines), and SME (Malaysia), which are responsible for regional sales. In addition, we operate numerous production sites including SEV and SEVT (Vietnam) for HHPs, SEHC (Vietnam) for TVs, SDV (Vietnam) for DPs, and SIEL (India) for multiple products.

We operate 30 subsidiaries in China, including SCIC (Beijing) and SEHK (Hong Kong) for the sales of finished products in those regions; and SSS (Shanghai) and SSCX (Xian) for semiconductors and DPs sales. Production sites for finished products include SSEC (Suzhou) and semiconductor production facilities are located in SCS (Xian) among others.

In 1Q23, the Company recorded total revenue of KRW 63,745.4 billion, a decrease of 18.0% year-on-year. Major customers (listed in alphabetical order) included Apple, AT&T, Deutsche Telekom, Qualcomm, and Verizon.

## **2. Key products and services**

### **A. Revenue**

SEC is involved in the production and sales of finished products, including TVs, refrigerators, washers, air conditioners, HHPs and components such as semiconductors (DRAM, NAND Flash, mobile APs) and display panels. Through Harman, the Company also produces and sells products such as digital cockpits and telematics.

In 1Q23, reported revenue was KRW 46,222.5 billion (72.5% of total net sales) for DX; KRW 13,734.5 billion (21.5%) for DS; KRW 6,614.2 billion (10.4%) for SDC; and KRW 3,165.9 billion (5.0%) for Harman.

Organization	Major products	Revenue	Portion
DX Division	TVs, monitors, refrigerators, washing machines, air conditioners, HHPs, network systems, computers, etc.	462,225	72.5%
DS Division	DRAM, NAND flash, mobile APs, etc.	137,345	21.5%
SDC	OLED smartphone panels, etc.	66,142	10.4%
Harman	Digital cockpit, telematics, speakers, etc.	31,659	5.0%
Others	Overlapping internal transactions between Divisions	-59,917	-9.4%
Total		637,454	100.0%

Includes inter-divisional transactions.

☞ See [『4. Revenue and long-term contracts』](#) for information by each product.

## B. Average selling price changes

In 1Q23, TV Average Selling Price("ASP") for televisions decreased approximately 5% and HHP ASP increased approximately 21% year-on-year. Memory-product ASP fell approximately 50% year-on-year, and display panel (OLED panels for smartphones) ASP increased approximately 2%. The ASP of digital cockpits increased approximately 1.0% year-on-year.

## 3. Production materials and production facilities

### A. Key production materials

For the DX Division, key materials include mobile AP and camera modules, which are supplied by Qualcomm, Semco, etc., and display panels for TVs and monitors, which are supplied by CSOT, etc. For the DS Division, key materials include chemicals and wafers, supplied by Soulbrain, SK Siltron, etc., and for SDC, key materials include FPCAs and windows, with suppliers such as BH, Apple, etc. For Harman, key materials include SoC (system-on-chip) products, which are supplied by Nvidia.

Organization	Type of purchase	Item	Specific usage	Purchase price	Portion <sup>1)</sup>	Main supplier(s)
DX Division	Production materials	Mobile AP	CPU	26,402	14.9%	Qualcomm, MediaTek, etc.
	Production materials	Camera module	Camera for HHP	16,662	9.4%	Semco, Powerlogics, etc.
	Production materials	Display panel	Color picture signaler for TV, monitor	11,224	6.3%	CSOT, AUO, BOE, etc.
	Production materials	Others	-	123,132	69.4%	
	Sub total			177,420	100.0%	
DS Division	Production materials	Chemical	Disk processing	7,106	16.5%	Soulbrain, DongWoo Fine-Chem, etc.
	Production materials	Wafer	Semiconductor disk	6,705	15.6%	SK Siltron, Siltronic, etc.
	Production materials	Others	-	29,284	67.9%	
	Sub total			43,095	100.0%	

Organization	Type of purchase	Item	Specific usage	Purchase price	Portion <sup>1)</sup>	Main supplier(s)
SDC	Production materials	FPCA	Circuit	4,323	20.7%	BH, YP Electronics, etc.
	Production materials	Window	Tempered glass	3,036	14.6%	Apple, Biel, etc.
	Production materials	Others	-	13,490	64.7%	
	Sub total			20,849	100.0%	
Harman	Production materials	SoC	Chips for vehicles	1,972	15.9%	Nvidia, Intel, etc.
	Production materials	Others	-	10,430	84.1%	
	Sub total			12,402	100.0%	
Others	Production materials	-	-	103	-	
Total				253,869	-	

Purchase price does not include sales between Divisions.

Semco is a subsidiary.

1) Portion of purchase price of each item compared to total purchase price for each Division's raw materials.

## B. Production material price trends

On a year-on-year basis, the prices of mobile APs and camera modules, which are major production materials for the DX Division, decreased approximately 20% and increased around 15%, respectively. The price of TV and monitor display panels decreased in the region of 14%. The prices of wafers for semiconductor disks increased by about 2%, and FPCAs for SDC declined by approximately 3%. The price of tempered glass windows also decreased, falling approximately 4%. For Harman, the price of SoCs increased by about 10% and memory for vehicles increased by approximately 7%.

## C. Production capacity, output, utilization rate

### (Capacity)

Organization	Item	Capacity			(1,000 units)
		1Q23	2022	2021	
DX Division	Image devices	13,697	55,747	54,235	
	HHP	83,400	332,170	319,550	
DS Division	Memory	465,881,169	1,905,731,836	1,756,009,941	
SDC	Display panel	572	2,700	3,604	
Harman	Digital cockpit	2,909	11,257	9,066	

Production capacity for major product categories on a consolidated basis.

The DX Divisions' production capacity, by major product, is calculated as follows:

- the average number of lines (x) the average output per hour (x) the average operation hours per day (x) standard days of operation

Memory production capacity for the DS Division is calculated as follows:

- converted output (after packaging, 1Gb equivalent) ÷ the utilization rate

SDC's production capacity is calculated as follows:

- the total producible panel surface area ÷ the dimensions of eighth generation glass (2,200x2,500mm)

Harman's production capacity for Digital cockpit is calculated as follows:

- the number of production (assembly and test) cells for each customer/product (x) the production capacity per hour by production cell (x) the standard operation hours per day (x) standard days of operation

## (Output)

In 1Q23, the DX Division's image device output was 10,559 thousand units (major production sites: Mexico, Vietnam, Brazil, and Hungary), and HHP output was 54,361 thousand units (major production sites: Korea [Gumi], Vietnam, India, and Brazil). The DS Division's memory output (1Gb equivalent) was 465,881 million (major production sites: Korea [Hwaseong, Pyeongtaek, etc.] and China). SDC's output of display panels was 289 thousand units (major production sites: Korea [Cheonan, Asan]). Harman's Digital cockpit output was 2,188 thousand units.

Organization	Item	Output		
		1Q23	2022	2021
DX Division	Image devices	10,559	41,802	44,133
	HHP	54,361	229,180	260,501
DS Division	Memory	465,881,169	1,905,731,836	1,756,009,941
SDC	Display panel	289	2,008	2,849
Harman	Digital cockpit	2,188	8,334	6,928

Output for major product categories on a consolidated basis.

## (Utilization rate)

DX utilization rates in 1Q23 were calculated as actual output relative to production capacity. The utilization rates were 77.1% for image devices and 65.2% for HHPs.

Organization	Item	1Q23		
		Production capacity	Output	Utilization rate
DX Division	Image devices	13,697	10,559	77.1%
	HHP	83,400	54,361	65.2%

The DS Division and SDC respectively operate memory and display panel production in three shifts (covering 24 hours a day). Cumulative operating days including holidays were 90 days in 1Q23. The utilization rate was calculated as the actual production time relative to the potential production capacity [operating days (x) number of production lines (x) 24 hours].

Organization	Item	1Q23		
		Potential production time	Actual production time	Utilization rate
DS Division	Memory	21,600	21,600	100%
SDC	Display panel	10,800	10,800	100%

In 1Q23, Harman's utilization rate was 75.2% and was calculated as actual output relative to production capacity.

Organization	Item	1Q23		
		Production capacity	Output	Utilization rate
Harman	Digital cockpit	2,909	2,188	75.2%

## D. Production facilities and investment

### (Key facilities for production and operation)

The Company's operational activities include production, development, marketing, and sales. In Korea, operations are located in Suwon, Gumi, Gwangju, Hwaseong, Pyeongtaek, and Asan. Overseas operations in North America, Europe, and China include a total of nine regional headquarters under the DX Division, five regional headquarters under the DS Division, and subsidiaries of SDC and Harman.

#### [Operations]

Region	Operations	Location
Korea (DX Division, DS Division, SDC – 12 work sites)	Suwon	Suwon
	Seocho	Seoul
	Woomyeon	Seoul
	Giheung	Yongin
	Hwaseong	Hwaseong
	Pyeongtaek	Pyeongtaek
	Cheonan	Cheonan
	Onyang	Onyang
	Asan	Asan
	Gumi1	Gumi
	Gumi2	Gumi
	Gwangju	Gwangju
Overseas (DX Division - 9 regional headquarters)	North America	New Jersey, US
	Europe	Surrey, UK
	China	Beijing, China
	Southeast Asia	Singapore, Singapore
	Southwest Asia	Haryana, India
	CIS	Moscow, Russia
	Middle East	Dubai, UAE
	Africa	Johannesburg, South Africa
	Latin America	Sao Paolo, Brazil
Overseas (DS Division - 5 regional headquarters)	Americas	San Jose, US
	Europe	Eschborn, Germany
	China	Shanghai, China
	Southeast Asia	Singapore, Singapore
	Japan	Tokyo, Japan
Harman	North America HQ	Connecticut, US

Harman's automotive business is mainly based in the US (Novi, MI) and in Germany (Garching), and its Lifestyle business is located in the US (Northridge, CA)

The Company's property, plant and equipment include land, buildings and structures, machinery and equipment, and construction in progress. As of March 31, 2023, the total book value was KRW 171,857.5 billion, which is an increase of KRW 3,812.1 billion from year-end 2022.

							(KRW 100 mil)
Classification		Land	Buildings and structures	Machinery and equipment	Under construction	Other tangible assets	Total
Dec 31, 2022	Book value	98,922	407,069	797,146	336,076	41,241	1,680,454
	- Acquisition cost	100,246	677,138	3,030,006	336,076	132,485	4,275,951
	- Accumulated depreciation (including impairment loss)	-1,324	-270,069	-2,232,860	-	-91,244	-2,595,497
Change	General acquisition and capital expenditure	1,448	10,746	58,084	39,940	3,215	113,433
	Depreciation <sup>1)</sup>	-122	-9,318	-74,552	-	-4,017	-88,009
	Disposal/discard/impairment	-140	-1,717	-137	-	-85	-2,079
	Others <sup>2)</sup>	236	4,339	5,389	4,112	700	14,776
Mar 31, 2023	Book value	100,344	411,119	785,930	380,128	41,054	1,718,575
	- Acquisition cost	101,739	691,105	3,103,575	380,128	132,276	4,413,823
	- Accumulated depreciation (including impairment loss)	-1,395	-279,986	-2,317,645	-	-96,222	-2,695,248

Market value of major tangible assets is omitted as objective assessment is difficult.

1) Land-depreciation is depreciation expense of right-of-use asset as per K-IFRS 1116 (Lease).

2) Includes effects of FX rates and government subsidies.

## (Capex)

The Company's capex in 1Q23 was KRW 10.7 trillion, with investments concentrating on capacity expansions and migration to advanced nodes; and also on infrastructure for the DS Division and SDC. Amid deteriorated global market conditions, the Company in 2023 is pushing to continue investments to bolster future competitiveness and to ensure readiness for mid- to long-term demand. At the same time, the Company aims to boost investment efficiency to stabilize results.

### [Capex, by organization]

					(KRW 100 mil)
Organization	Purpose	Period	Assets	Investment	
DS division	Establishment, addition, upgrade	January–March 2023	Buildings, facilities, etc.	97,877	
SDC	Establishment, addition, upgrade	January– March 2023	Buildings, facilities, etc.	3,328	
Other	Establishment, addition, upgrade	January– March 2023	Buildings, facilities, etc.	6,183	
Total					107,388

## 4. Revenue and long-term contracts

### A. Revenue

In 1Q23, the Company recorded total revenue of KRW 63,745.4 billion, a decrease of 18.0% year-on-year. By organization, when compared to the same period last year, revenue of the DX Division, DS Division, and SDC decreased by 3.8%, 48.9%, and 17.0%, respectively, and revenue of Harman increased 18.7%.

Organization	Revenue types	Product categories	1Q23	2022	2021
DX Division	Goods, products, services, other	TVs, monitors, refrigerators, washing machines, air conditioners, HHPs, Network systems, computers, etc.	462,225	1,824,897	1,662,594
DS Division	Goods, products, services, other	DRAM, NAND flash, mobile APs, etc.	137,345	984,553	953,872
SDC	Goods, products, services, other	OLED panels for smartphones, etc.	66,142	343,826	317,125
Harman	Goods, products, services, other	Digital cockpit, telematics, speakers, etc.	31,659	132,137	100,399
Others	Overlapping internal transactions between Divisions		-59,917	-263,099	-237,942
Total			637,454	3,022,314	2,796,048

Includes inter-divisional transactions.

Figures for 2021 were adjusted to reflect the organizational changes in December 2021.

### (1) Sales, by major product (on a consolidated basis)

Classification	1Q23	2022	2021
Image devices	74,349	332,795	314,974
Mobile devices	307,446	1,154,254	1,046,806
Memory	89,170	685,349	726,022
Display panels	66,142	343,826	317,125

Includes inter-divisional transactions.

## (2) Revenue, by type

(KRW 100 mil)			
Classification	1Q23	2022	2021
Products	604,696	2,903,461	2,658,785
Services and other revenue	32,758	118,853	137,263
Total	637,454	3,022,314	2,796,048

Other revenue consists of royalty income, etc.

## (3) Revenue, by region (on a separate basis)

(KRW 100 mil)			
Classification	1Q23	2022	2021
Domestic	61,105	221,799	221,497
Export	Americas	134,083	659,617
	Europe	59,068	265,147
	Asia and Africa	88,278	425,114
	China	79,153	546,998
	Total	421,687	2,118,675

Domestic consumption and exports on a separate basis.

## B. Sales channels

### (1) Domestic

Seller	Sales channel	Consumer
Manufacturer and buyer	Exclusive agencies	Consumer
	Distributor (general merchandise stores, discount stores, department stores, home-shopping, online, etc.)	
	Telecommunication service provider (SKT Co., Ltd., KT Corp., LG Uplus Corp.)	
	Direct Sales (B2B and online channels)	

### (2) Overseas

Seller	Sales channel				Consumer	
Production subsidiaries	Regional sales office	Retailer			Consumer	
		Dealer		Retailer		
		Distributor	Dealer	Retailer		
		Telecommunication service provider, automotive OEM				
		Direct sales (B2B and online channels)				
	Regional distribution office	Regional sales office	Retailer			
			Dealer	Retailer		
			Distributor	Dealer	Retailer	

### (3) Sales ratio (global), by channel

Channel	Wholesale	Retail	Special/direct sales	Others
Ratio	20%	31%	43%	6%

## C. Sales methods and conditions

### (1) Domestic

Classification	Channel	Collection	Incidental expense sharing
Exclusive	Retailer	Credit specific	Case specific cost sharing as determined by mutual agreement
Distributor	General merchandise store, discount store, department store, home shopping, online, etc.	Case specific and contract specific	Case specific cost sharing as determined by mutual agreement
Telecommunication service provider	SKT Co., Ltd., KT Corp. LG Uplus Corp.	Case specific and contract specific	Case specific cost sharing as determined by mutual agreement (joint marketing)
B2B and online channels	Corporate clients, etc.	Case specific and contract specific	N/A

### (2) Overseas

Classification	Channel	Collection	Incidental expense sharing
Retailer	Retail store	Case specific and contract specific	Case specific cost sharing as determined by mutual agreement
Dealer	General merchandise store, discount store, department store	Case specific and contract specific	Case specific cost sharing as determined by mutual agreement
Distributor	Direct sales to local distributors	Case specific and contract specific	Case specific cost sharing as determined by mutual agreement
B2B and online channels	Corporate clients, etc.	Case specific and contract specific	N/A

## D. Sales strategy

- Expand market leadership based on premium products
- Provide differentiated value to customers through brand, products, and services
- Strengthen marketing activities to boost demand from customer/market

## E. Major customers

In 1Q23, major customers (listed alphabetically) included Apple, AT&T, Deutsche Telekom, Qualcomm, and Verizon. Sales to the five major customers accounted for approximately 15% of total sales.

## F. Long-term contracts

As of March 31, 2023, there were no long-term contracts that have a significant impact on the Company's financial statement.

## **5. Risk management and derivative trading**

### **A. Financial risk management policy**

The Company's financial risk management focuses on minimizing market risk, credit risk, and liquidity risk arising from operating activities. To mitigate these risks, the Company closely monitors each risk factor and operates corresponding financial risk management policies and program. The Company's use of derivative instruments for hedging risks are included in this program.

The finance team mainly carries out the Company's financial risk management. After implementing the global financial risk management policies, the finance team periodically measures, evaluates, and hedges financial risks.

Meanwhile, the Company manages exchange rate risk via monitoring exchange rates and conducting transactions through local finance centers in each major region (United States, United Kingdom, Singapore, China, Brazil, and Russia). Liquidity risk is managed by managing capital as a whole by each region.

The Company's assets that are under financial risk management consist of cash and cash equivalents, short-term financial instruments, financial assets at amortized cost, trade receivables and others. The Company's liabilities under financial risk management consist of trade payables, borrowings, and others.

### **B. Major financial risks**

#### **(1) Market risk**

##### **(Foreign exchange risk)**

The Company operates internationally and is exposed to foreign exchange risks as it conducts transactions in currencies other than the functional currency. Major currencies that are exposed to foreign exchange risk include USD, EUR, INR, and others.

The Company focuses on minimizing the impact of foreign exchange fluctuation by maintaining the equal amount of assets and liabilities denominated in each foreign currency, irrespective of foreign exchange fluctuation considerations. To prevent exchange position, the Company's foreign exchange management policy requires normal business transactions, including import and export, as well as financing transactions such as depositing and borrowing, to be in local currency or for the cash-in currency to be matched up with the cash-out currency.

In order to effectively manage foreign exchange risk, the Company periodically monitors and evaluates exchange rate risk and strictly prohibits speculative foreign exchange transactions.

##### **(Interest rate risk)**

Risk of changes in interest rates for floating interest rate financial instruments is defined as the risk that the fair value of components of the consolidated statement of financial position, and future cash flows of interest income (expenses) of a financial instrument, will fluctuate because of changes in market interest rates. The Company's position with regard to interest rate risk exposure is mainly driven by its floating interest rate debt obligations and interest-bearing deposits. The Company implemented policies and operates to minimize uncertainty arising from changes in interest rates and financial expenses.

##### **(Price risk)**

The Company's investment portfolio consists of direct and indirect investments in equity securities classified as financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss, which is in line with the Company's strategy.

As of March 31, 2023, a price fluctuation of marketable equity securities (listed stocks) of 1% changes ‘other comprehensive income’ (before income tax) by KRW 111,415 million and ‘profit before tax’ by KRW 5,354 million. The figures as of the same date in 2022 were KRW 107,834 million and KRW 3,750 million, respectively.

## **(2) Credit risk**

Credit risk arises during the normal course of transactions and investing activities where clients or other parties fail to discharge an obligation. The Company sets and manages the client’s and counterparty’s credit limit, and evaluates their financial credit rating on a periodic basis based on the client’s and counterparty’s financial conditions, default history and other important factors. Adequate insurance coverage is maintained for trade receivables related to trading partners situated in higher risk countries.

Credit risk can arise from transactions with financial institutions, which include financial instrument transactions such as cash and cash equivalents, savings, and derivative instruments. To minimize such risk, the Company transacts only with banks which have strong international credit rating (S&P A and above), and all new transactions with financial institutions with no prior transaction history are approved, managed and monitored by the Company’s finance team and the local finance center. The Company generally enters into a financial agreement with no restrictions, such as debt ratio covenants, provision of collateral, and loans or borrowings repayment. The Company requires separate approval for contracts with restrictions.

The Company estimates that its maximum exposure to credit risk is the carrying amount of its financial assets, net of impairment losses.

## **(3) Liquidity risk**

Due to the nature of the Company’s business that requires making large investments, maintaining adequate level of liquidity risk is crucial. The Company maintains and manages adequate level of liquidity by periodically forecasting its capital balances, estimating required cash, managing income and expenses, and others.

The Company effectively manages its liquidity risk by periodically forecasting projected cash flows and by utilizing regional cash pooling, which allows for the use of internal funds when an entity in a region lacks liquidity. The cash-pooling program allows sharing of surplus funds among entities and contributes to minimizing liquidity risk and strengthening the Company’s competitive position by reducing capital operation expenses and financial expenses.

In addition, the Company’s headquarters provides payment guarantees to overseas subsidiaries to secure credit limit to brace for potential large-scale liquidity needs.

## **(4) Capital risk**

The purpose of capital management is to protect our capability of continuously providing profit to our shareholders and stakeholders and to maintain a sound capital structure. To this end, the Company monitors capital on the basis of credit rating and the ratio of total liabilities to total equity.

As of March 31, 2023, the Company has an AA- and Aa2 credit rating from S&P and Moody’s, respectively, and the figures for total liabilities and total equity are as follows:

	Mar 31, 2023	Dec 31, 2022
Total liabilities	94,292,361	93,674,903
Total equity	359,799,416	354,749,604
Total liabilities to equity ratio	26.2%	26.4%

### C. Derivative instruments and put options

The Company hedges foreign currency positions by trading currency forward contracts of currencies other than won for the purpose of managing foreign exchange risk. Currency forwards are bought through a bank in the purpose of trade and hedging.

As of March 31, 2023, the Company had 2,718 currency forward contracts involving 34 foreign currencies, including USD, EUR, JPY and the book value of assets and liabilities as well as valuation gain and loss were as follows:

	Assets	Liabilities	Valuation gain	Valuation loss
Currency forwards	142,276	176,174	253,249	311,539

According to the shareholders' agreement signed with Rainbow Robotics, its major shareholder, etc., the Company has the right, within a specific time period, to demand that the major shareholder, etc., sell all or part of their Rainbow Robotics shares to the Company or the third party designated by the Company. Moreover, the major shareholder, etc. of Rainbow Robotics has the right to demand that the Company sell all or part of the Company's Rainbow Robotics shares back to the major shareholder, etc., under certain conditions. Fair value of the above call option as of March 31, 2023, was evaluated by Deloitte Anjin LLC.

Furthermore, Samsung Display (a subsidiary of the Company) may exercise its put option to sell part of its shares of Corning Incorporated back to Corning, according to the stock trade contract with Corning on April 8, 2021.

Samsung Display may exercise its put option to sell all or part of its shares of TCL China Star Optoelectronics Technology Co. Ltd. (CSOT) to TCL Technology Group Corporation (TCL), if CSOT remains unlisted within the listing period, according to the shareholders' agreement executed with TCL and CSOT on April 1, 2021.

Fair value of the above put option as of March 31, 2023, was evaluated by Earnest & Young Global Limited.

## 6. Major contracts and research and development activities

### A. Major contracts

Account	Contract information	Contents
Cisco	Type	Patent cross-license agreement
	Date	Jan 23, 2014
	Purpose and contents	Eliminate risk of patent disputes and lawsuits through mutual patent licensing
Google	Type	Patent cross-license agreement
	Date	Jan 25, 2014 / indefinite term
	Purpose and contents	Eliminate risk of patent disputes and lawsuits through mutual patent licensing
	Other	Permanent license contract (including patent applications in the next 10 years)
GlobalFoundries Inc.	Type	Process technology license agreement
	Date	Feb 28, 2014
	Purpose and contents	Expand customer base of 14nm process
InterDigital	Type	Patent license agreement
	Date	Jun 3, 2014
	Purpose and contents	Eliminate risk of patent disputes and lawsuits through patent licensing
Qualcomm	Type	Patent cross-license agreement
	Date	July 6, 2022
	Purpose and contents	Secure business flexibility through mutual patent licensing and signing of covenant not to sue
Apple	Type	Withdrawal of lawsuit agreement
	Date	Jun 26, 2018
	Purpose and contents	Withdraw from all lawsuits in the United States
Nokia	Type	Patent license agreement
	Date	Jan 19, 2023
	Purpose and contents	Secure business flexibility through patent licensing
Microsoft	Type	Patent cross-license agreement
	Date	Feb 11, 2019

Account	Contract information	Contents
	Purpose and contents	Eliminate risk of patent disputes and lawsuits through mutual patent licensing
Google	Type	EMADA
	Date	Jan 1, 2023–Dec 31, 2023 (extended)

Huawei	Type	Patent cross-license agreement
	Date	Jul 13, 2022
	Purpose and contents	Secure business flexibility by securing mutual patent licensing
AMD	Type	Technology licensing agreement
	Date	May 30, 2019
	Purpose and contents	Secure mobile graphics design for mobile products and other applications
Sharp	Type	Patent cross-license agreement
	Date	July 30, 2019
	Purpose and contents	Eliminate risk of patent disputes and lawsuits through mutual patent licensing
Ericsson	Type	Patent cross-license agreement
	Date	May 7, 2021
	Purpose and contents	Eliminate risk of patent disputes and lawsuits through mutual patent licensing

Information that may be referenced or used in other IP disputes, including contract amount, is excluded.

## B. Summary of R&D activities and expenditures

The Company is leading the global market by continuously developing creative and innovative products and the future technology through shifting its way of thinking and understanding customer demand. The Company is doing its utmost to cement its position in the global IT industry and become a worldwide leader in industrial technology by creating and securing next-generation technology.

As of March 31, 2023, the Company's R&D expenses were KRW 6,579.0 billion year-to-date. Among this, KRW 6,578.7 billion was recognized as expenditures, excluding government subsidies and capitalized expenses.

### (R&D expenses)

		(KRW mil)		
		1Q23	2022	2021
Total R&D expenditures		6,579,002	24,929,171	22,596,487
(Government subsidies)		-268	-9,973	-1,053
R&D expenditures		6,578,734	24,919,198	22,595,434
Accounting	Capitalization of development expenses (intangible asset)	-	-	-193,708
	R&D costs (expenses)	6,578,734	24,919,198	22,401,726
R&D expenses/revenue ratio <sup>1)</sup>		10.3%	8.2%	8.1%

On a consolidated basis.

1) Calculated using total R&D expenditures, which includes government subsidies.

## C. R&D organization and operations

### (Domestic)

The Company operates three levels of R&D organizations: R&D teams of business units under each Division that develop market-ready technologies with a 1–2 year outlook; research institutes of each Division that develop mid- to long-term technology with a 3–5 year outlook; and the Samsung Advanced Institute of Technology, which develops core technology as seeds for future growth engines.

Samsung Advanced Institute of Technology is the central research institute of Samsung Electronics that has been established to lead the Company into the future and serve as an incubator of cutting-edge technology. It has a creative R&D system and provides R&D direction for promising growth sectors at the Company level, exploring future growth engines and strengthening technological competitiveness of core businesses.

### (Overseas)

The Company operates R&D organizations in the US (SRA), China (SSCR, SRC-Beijing, SRC-Nanjing, SRC-Guangzhou, SRC-Shenzen), India (SRI-Bangalore and SRI-Delhi), Bangladesh (SRBD), Israel (SRIL and SIRC), Russia (SRR), and Japan (SRJ), to carry out research activities for product development and basic technological research.

The Company has established AI centers in Cambridge (United Kingdom), Moscow (Russia), Toronto (Canada), Montreal (Canada), and New York (United States), so our global team of researchers can collaborate with international experts to strengthen capabilities in AI technology.

## D. R&D results

The Company's key R&D results by organization in 1Q23 are as follows:

| DX Division      |   |
|------------------|---|
| Research project | Details   |
| Vacuum cleaner   | <ul style="list-style-type: none"><li>Release of BESPOKE Jet AI 280W, a cordless stick vacuum with top-notch performance (suction power, run time, etc.)</li></ul>  |
| Galaxy S23       | <ul style="list-style-type: none"><li>Launch of Galaxy S23 · S23+ · S23 Ultra</li></ul>   |
| Galaxy A         | <ul style="list-style-type: none"><li>Rollout of A54 5G</li><li>Release of A34 5G</li><li>Launch of A14 LTE · 5G</li></ul>  |
| Galaxy Book      | <ul style="list-style-type: none"><li>Rollout of Galaxy Book3 Ultra</li><li>Rollout of Galaxy Book3 Pro 360</li><li>Release of Galaxy Book3 Pro</li><li>Launch of Galaxy Book3 360</li></ul>  |
| Cell solution    | <ul style="list-style-type: none"><li>Development of Strand Small Cell (small cell solution designed to be installed on cables) for the first commercial use</li></ul>  |
| DS Division      |   |
| Research project | Details   |
| SSD              | <ul style="list-style-type: none"><li>Mass production of PM9C1a, a high-performance PC SSD equipped with a 5nm controller</li></ul>   |
| Exynos           | <ul style="list-style-type: none"><li>Standardization of 5G non-terrestrial networks (NTN) modem technology for smartphone-satellite communication</li><li>Release of Exynos Connect U100, a chipset for short-range wireless communication</li></ul> |
| Image sensor     | <ul style="list-style-type: none"><li>Rollout of ultra-high resolution 200MP image sensor (HP2, 0.6um/200Mp)</li></ul>  |

**SDC**

| Research project | Details  |
|------------------|--|
| OLED             | <ul style="list-style-type: none"><li>• Development of ultra-high resolution OLED displays for VR</li><li>• Development of 14"/16" OLED displays for laptops</li></ul> |

Please refer to [『Appendix-4. R&D results \(detailed\)』](#) for more details.

## 7. Other information

### A. Intellectual property

Intellectual property activities are an integral part of our R&D strategies—SEC registered its first US patent in 1984 and currently holds 230,117 patents around the world. The Company holds the highest number of its patents in the US and aims to address conflicts in the US more effectively.

#### (Number of patents registered in each country)

[As of March 31, 2023]

(Unit: No. of patents)

|        | Korea  | US     | Europe | China  | Japan | Others | Total   |
|--------|--------|--------|--------|--------|-------|--------|---------|
| Number | 53,672 | 89,594 | 42,245 | 21,030 | 8,960 | 14,616 | 230,117 |

In 1Q23, the Company invested KRW 6.6 trillion in R&D and registered 2,220 domestic and 2,268 US patents.

#### (Number of patent registrations per year)

(Unit: No. of patents)

|       | 1Q23  | 2022  | 2021  |
|-------|-------|-------|-------|
| Korea | 2,220 | 9,136 | 8,437 |
| US    | 2,268 | 8,490 | 8,565 |

These patents are mostly related to smartphones, smart TVs, memory, and system LSI products for the Company's strategic business products or for future use. These patents not only protect the Company's business but also play a role in keeping similar technology and patents, as well as competitors, in check. Additionally, the Company is focusing on securing early patents in new technologies ahead of others, in order to protect opportunities and have the freedom to operate when entering new businesses.

The Company has signed licensing agreements with Cisco (signed in January 2014), Google (January 2014), Qualcomm (January 2018), Nokia (October 2018), Microsoft (February 2019), Sharp (July 2019), and Ericsson (May 2021) through which the Company has secured an extensive patent protection in mainstay businesses as well as in the fields of new business.

The Company has also been focusing on securing design patents to protect its original design applied to smartphones and smart TVs. In 1Q23, the Company acquired 112 US design patents, in part for the aforementioned purposes.

### B. Environmental regulations

The Company strictly abides by environmental regulations on products and in the workplace, as prescribed by law. In addition, in accordance with "the low carbon green growth policy" of the Korean government, the Company reports "the amount of greenhouse gas emission and energy use" to the government and provides related information to stakeholders by providing various reports, including the Samsung Sustainability Report.

## **(Environmental regulation of products)**

Environmental regulation of products are becoming stricter, reflecting the concerns of governments and regulators about potential direct and indirect impact of products to consumers' health and safety as consumers. Accordingly, the Company is working to minimize the environmental impact throughout the entire life cycle of products from the development stage of components and products to manufacturing, distribution, use, and disposal. The Company offers "Eco-Partner Certification" to suppliers for components free of harmful substances, and runs an "eco-design evaluation" system to reflect eco-friendly elements on products (reduced use of resources, energy and harmful substances, and the use of eco-friendly materials) at the development stage, and operates a "waste electronics collection recycle system" in Europe, North America, Korea, and India for collecting and recycling waste electronics. These activities are in line with domestic and foreign environmental laws on electronics and are a differentiation factor for the Company and its products.

Relevant laws are as follows:

1. law on collection and recycle of waste electronics (e.g., EU WEEE Directive)
2. limit on the use of harmful substances (e.g., EU RoHS Directive, REACH Regulation)
3. regulation on energy efficiency (e.g., EU ErP Directive)

## **(Environmental regulations in the workplace)**

The Company operates environmental pollution prevention facilities to reduce air pollution, water pollution, and waste disposal, and to minimize the discharge of pollutants, thereby minimizing impact on the surrounding environment.

Environmental management of workplace is supervised by the relevant government authorities. All production facilities, domestic and overseas, have acquired the International Occupational Health and Safety Management System Certification (ISO 14001, ISO 45001) to strengthen compliance.

Major Relevant Domestic and International Laws are as follows:

1. Regulations related to emission of pollutants: Water Quality and Ecosystem Conservation Act, Clean Air Conservation Act, Wastes Control Act, Noise and Vibration Control Act, Environmental Impact Assessment Act
2. Management of greenhouse gas emission: Act on Allocation and Trading of Greenhouse Gas Emission, Framework Act on Low Carbon, Green Growth
3. Others: Toxic Chemicals Control Act, Act on the Registration and Evaluation, etc. of Chemical Substances, Odor Control Law, Soil Environment Conservation Act

## (Greenhouse gas emission and energy consumption management)

The Company is a “controlled entity” according to Article 42 (Coping with Climate Change and Management of Targets for Energy) Paragraph 6 of Korea’s “Framework Act on Low Carbon, Green Growth”. Thus, the Company has been reporting the amount of greenhouse gas emission and energy consumption, verified by a third-party, to the authorities and disclosing it to stakeholders according to Article 44 (Reporting on Quantity of Greenhouse Gases Emitted and Quantity of Energy Consumed) of the same Act since May 2011.

The reported amount of greenhouse gas emission and energy use are provided below:

(Unit: tCO<sub>2</sub>-eq, TJ)

|                                       | 2022       | 2021       | 2020       |
|---------------------------------------|------------|------------|------------|
| Greenhouse gas (tCO <sub>2</sub> -eq) | 19,568,505 | 19,267,835 | 17,234,522 |
| Energy (TJ)                           | 277,516    | 274,298    | 255,990    |

On a consolidated basis.

Domestic manufacturing facilities, office buildings, buildings owned by the Company, leased buildings, etc.

Reported Greenhouse gas emission excludes ozone depletion substances (ODS).

Amounts may differ based on results of governmental evaluations on emissions.

From 2015, in accordance with the Article 8 (Designation of Business Entities Eligible for Allocation) of the Act on the Allocation and Trading of Greenhouse-Gas Emission Permits, the Company is an eligible business entity under the Act.

## C. Current status of each division

### [DX Division]

#### Industry overview

##### 1) TV Industry

TVs are key products of the DX Division, and the TV industry went through continual technological developments. The black-and-white TV was first developed in 1926, and in 1954, RCA started mass production and sales of 21" color TVs. Such developments have led to the creation of products such as the Trinitron CRT (1967) and flat CRT (1996). As the penetration rate in major countries reached over 90%, the growth of the CRT TV industry stagnated. The industry regained strong growth momentum following the launch of flat panel TVs (“FPTVs”) like LCDs and PDPs, especially with the expansion of digital broadcasting. FPTVs replaced CRT sets on the back of their enhanced design, picture quality, etc., combined with releases of competitively priced products.

The year 2010 saw the launch of 3D TVs, and the rise of internet video services along with increased consumer interest in smart devices from 2011 to 2012 led to the birth of the smart TV market. The evolution continued with the launches of Quantum Dot QLED TVs in 2017, boasting significantly enhanced resolution and picture quality, and with commercialization of 8K and Micro LED TVs.

##### 2) Mobile phone industry

The mobile phone industry started with first generation analogue devices in the early 1980s that only supported voice communication and evolved to second generation digital ones, using technology such as CDMA and GSM, where users could send voice and text messages. Third generation mobile communication standards such as WCDMA allowed users to send photos and videos. Today, fourth generation LTE mobile communication technology with ultra-high-speed data transmission is becoming commonplace and was used in 83% of phones sold in 2022 (*Strategy Analytics*, March 2023).

Fifth generation mobile communication services, which will lead innovation alongside the fourth industrial revolution, was successfully launched in Korea and the US, and is now commercialized globally. As a result, 5G smartphones are accelerating the development of an ecosystem of mashup services and related industries, with the sales increasing sharply to 680 million units in 2022 from 270 million units in 2020 (Strategy Analytics, March 2023).

The smartphone industry has grown significantly since 2007. In 2022, the smartphone portion of total HHP sales volume was approximately 82%, and the feature phone portion of the total was approximately 18%, with the latter related to demand in emerging markets (Strategy Analytics, March 2023). For 2023, the penetration rate of smartphones is expected to have reached 53%, rising slightly from 52% in 2022 (Strategy Analytics, December 2022).

Also, as the smartphone market shows high saturation, the importance of competitiveness of the overall experience based on software for applications, UX, games, media, digital wallets, AI, security, etc., is rising alongside that of competitive hardware, which includes high-performance APs, large screen AMOLED displays, foldable form factors, multiple cameras, sensors, waterproof & dustproof features, biometric recognition, and more.

## Market condition

### 1) TV Industry

In 2022, TV demand declined compared to the previous year, falling to 203.26 million units sold due to the impacts of a decline in real household income triggered by the Russia-Ukraine war, increased supply instability of raw materials and energy, and expanded global inflation. However, in 2023, we project the market to grow slightly to 205.52 million units centering on emerging markets, such as Asia, Middle East, and Africa (*Omdia*, March 2023).

< Market share of TV >

| Product | 1Q23  | 2022  | 2021  |
|---------|-------|-------|-------|
| TV      | 32.9% | 29.7% | 29.5% |

Global market share in revenue; from Omdia. (Data for 1Q23 is an estimate from the Company.)

### 2) Mobile phone industry

The smartphone market is expected to slightly decline from 1.20 billion units in 2022 to 1.19 billion units in 2023 due to uncertainties such as continued geopolitical instability and inflation (Strategy Analytics, March 2023). The tablet market, which continued to trend downward due to weak replacement demand, grew to 180 million units in 2021 thanks to an increase in contactless demand triggered by COVID-19. In 2022, it dropped to 160 million units, and in 2023, it is projected to remain at a similar level (Strategy Analytics, March 2023).

< Market share of Smartphone >

| Product    | 1Q23  | 2022  | 2021  |
|------------|-------|-------|-------|
| Smartphone | 25.2% | 21.7% | 20.0% |

Global market share in quantity; data from research firm *Strategy Analytics*. (Figure for 1Q23 is estimate from *Strategy Analytics*.)

## Business condition

### 1) TV Industry

We have maintained the top position in the overall TV market for seventeen straight years since claiming the number one spot in 2006.

In 2018, we released world's first 8K TV in the global market, once again leading the premium segment in the TV industry. Our QLED lineup includes sizes ranging from mid-sized to ultra-large screens, giving customers a variety of choices. In addition, the significantly improved picture quality was well received by consumers and experts alike. We achieved solid results by introducing ultra-large screens in the UHD lineup as well as in the QLED lineup.

In 2020, we enhanced our leadership and dominance in the market with 4K and 8K QLED TVs and new Lifestyle TVs such as The Terrace, The Premiere and The Sero despite a global economic crisis due to COVID-19.

In 2021, we expanded our premium product lineup by launching Neo QLED TVs featuring significantly upgraded contrast and picture quality. Moreover, the sales portion of Lifestyle products and sound bars has increased, and a rising number of companies have participated in various smart ecosystems, including TV plus, home training, and games. Since 2021, we have been particularly strengthening our efforts toward becoming a more eco-friendly business, from raw materials to packaging, and we are enhancing accessibility to help the visually impaired and hard of hearing to conveniently use our products.

In 2022, we increased our market share in the premium, ultra-large, over 75" TV market centering on innovative Neo QLED 8K technologies and further reinforced our Lifestyle TV lineups by introducing The Freestyle.

In 2023, we will increase our market share by focusing on premium, flagship products, such as Neo QLED and Super Big TVs; and for Lifestyle TVs, we will expand our lineups and improve product performance to continue to provide our customers with products tailored to their needs. Furthermore, in line with the Company's new environmental strategy, we will increase adoption of recycled plastic materials in our eco-friendly remote controls and roll out TV products that apply ultra-low power technologies.

### 2) Mobile phone industry

SEC has always been at forefront of the HHP market, and for smartphones in particular, we have maintained leadership in the global market for eleven consecutive years.

To solidify our status in the overall mobile market, we continue to bolster the competitiveness of our products—including tablets, wearables, and accessories—as well as content and service businesses such as digital health and digital wallet.

For smartphones, we are establishing optimal portfolios for each region, accounting for varying market conditions and the competitive environment, offering a wide smartphone lineup ranging from mass-market to premium devices. We have been providing premium smartphones and delivering differentiated user experiences that can meet customer needs via our cutting-edge technology, which includes Dynamic AMOLED 2X (120Hz) displays, digital key and content sharing using UWB (ultra wideband), water- and dust-proofing, high-speed cable and wireless charging, ultrasonic fingerprint-on-display (FoD), high-resolution and optical zoom/night mode camera with AI technology, 8K video recording, on top of large-screen Infinity Displays.

In 2019, we secured early leadership in the 5G market with the release of the world's first 5G smartphone while also creating a new market with Galaxy Fold, enabled by foldable displays. In 2020, we continued to lead the foldable market with the launch of Galaxy Z Flip, a new form factor that folds from top down, and a further evolved edition Galaxy Z Fold 2. In 2021, we released the third generation Galaxy Z Series with significantly enhanced durability based on unrivaled

craftsmanship, leading the foldable market.

In 2022, the market embraced the releases of Galaxy Z Fold 4 and Galaxy Z Flip 4, which featured further enhancements to the completeness of their respective core experiences—multi-tasking and Flex Mode. We continue to target achieving higher sales of foldable products relative to previous releases of Note models, with our mainstreaming of the new foldable series.

Moreover, for the Galaxy S23 Series (released in 2023), we strived to solidify our technology leadership by improving the product experiences that our consumers feel in their daily lives. In particular, S23 Ultra was well-received by the market as it offers a further enhanced night mode camera and zoom function leveraging 200MP image sensors; and increased adoption of high-density memory and eco-friendly materials.

Furthermore, to respond to an ever-changing market as well as customer needs, we are strengthening product competitiveness by introducing innovative features such as 5G, quad cameras, large infinity displays, and high-capacity batteries even to mid-range-and-below products.

In addition, we provide richer experiences for our smartphone users with our Galaxy Eco products, including tablets that help boost productivity via virtual meetings, multitasking, and note-taking with large-screen display and S Pen; and wearables such as smart watches that provide sophisticated fitness and wellness functions—thanks to the adoption of innovative biosensor technologies—and wireless earphones that provide rich, clear sound.

Not content to dwell on our achievements in hardware, we have been focusing on delivering new and helpful services like Samsung Pay, Samsung Health, and SmartThings. To deliver a consistent and high-quality Multi-Device Experience, we are adding Bixby features to a suite of products in addition to smartphones, including TVs, refrigerators, air conditioners, etc.

Moreover, we are strengthening strategic partnerships to expand our ecosystem, and we are securing new and innovative technologies by sustaining investments in fields with growth potential, including digital health and digital wallets, by utilizing SmartThings, Bixby, and Cloud, and by reinforcing our Service Business.

Furthermore, we continue to innovate eco-friendly technologies, including ones to expand adoption of recycled materials in our products. A prime example is the adoption of materials repurposed from discarded fishing nets in our key products, including Galaxy S22 and S23 series and Galaxy Z Fold 4.

We will continue to leverage our superior R&D capabilities to be fully prepared to keep delivering new value to customers.

## [DS Division]

### Industry overview

In general, our Semiconductor business is divided into Memory (storage) and System LSI (logical processing). Memory semiconductor is divided into RAM products (random access memory, ones that can be both written on and read) and ROM products (read only memory).

RAM is called volatile memory as the information is deleted when the power is turned off. It is used for temporary loading and storage of application programs. ROM is nonvolatile and holds memory even when power is removed; it is used in input/output system, IC cards, and more.

For System LSI products, there are many categories for various applications. SoCs for mobile devices that are equipped with CPUs, GPUs, ISPs (image signal processors), and modems are our major products. The Company manufactures mobile SoCs for smartphones and tablets, image sensors, and DDIs (display driver ICs) for OLED.

The Foundry Business makes customized semiconductors for other companies based on customer designs. The business resembles OEMs in the traditional manufacturing industry in the sense that companies consign the manufacturing of their products to fabrication plants, also called foundries or fabs. Due to increasing difficulty in semiconductor process and growing investment cost, the number of fabless semiconductor companies is growing, and the Foundry Business is in charge of consignment semiconductor production for such fabless companies.

### Market condition

For the memory market, overall memory demand remained weak as a number of our customers continued to adjust inventory to solidify financial health and as consumer sentiment kept deteriorating under external uncertainties such as a global economic downturn. In particular, the inventory reduction trend continued mainly from hyperscalers, and reduced IT spending by enterprises resulted in sluggish demand for server and storage. We focused on securing DDR5 DRAM demand for server following the adoption of a new CPU, and at the same time, preemptively addressed demand for DRAM centering on high-density products by major mobile customers. For NAND, we also actively addressed demand for high-density products (512GB and above for flagship mobile products) across overall applications.

Growth in the foundry market slowed compared to the previous year, affected by weak demand triggered by the prolonged global economic downturn that continued from 2H22; and demand is likely to remain weak in 2Q. However, we expect the market to rebound gradually from 2H thanks to a boost in demand, including on effects related to alleviated monetary tightening in major economies and normalized conditions in the supply chain. Growth in the mid to long term is likely to stay on track thanks to increased penetration of 5G for mobile and heightened demand for high performance automotive-use SoCs (for autonomous driving) and high performance computing.

#### <Market share of DRAM >

| Product | 1Q23  | 2022  | 2021  |
|---------|-------|-------|-------|
| DRAM    | 43.0% | 43.1% | 43.0% |

Global market share in revenue; data from research firm *DRAMeXchange*. (Data for 1Q23 is an estimate from the Company.)

### Business condition

In 2Q23 for the memory business, demand growth is projected to be limited due to macroeconomic risks and conservative investments by server customers alongside healthy inventory levels at mainly mobile and PC customers. In response, for DRAM, we will address increasing demand for DDR5 and high-density products resulting from the release of a new CPU for server and increased AI demand while we actively address LPDDR5x mobile demand for high-end products. For NAND products, we will leverage our cost competitiveness to address demand from the high-density trend from our major

customers, and we will create new demand by expanding entry into the mobile QLC market.

For System LSI, amid projections that major customers are likely to intensify inventory adjustments due to the continued global economic downturn and the stagnant mobile market in China, we will overcome challenges by strengthening cooperation with our customers, through timely development of new, next-generation products, and by bolstering our cost competitiveness. For SoCs, we are expanding our lineups via custom SoCs for mobile and SoCs for automotives in addition to developing products that apply mobile 5G SoCs and products from advanced nodes. Moreover, we are bolstering development of next-generation technologies, such as mobile satellite communications services, through cooperation with customers.

In the Foundry business, we are preparing throughout our business areas to overcome the still-depressed market conditions and to ensure readiness for a potential market recovery from 2H. For advanced nodes, we continue to focus our capabilities on the timely development of 2nd generation 3-nano products. We secured stable yields for 2nd and 3rd generation 4-nano products as we did for 1st generation 5-nano and 4-nano products; and we project that we will produce and supply 2nd generation 4-nano products according to plan. And by boosting the technological competitiveness of our advanced nodes, we will concentrate on securing future growth. Meanwhile, we are striving to address customer demand through timely capacity expansions by establishing new fabs, including in Pyeongtaek and Taylor, and by improving our supply capabilities. For mature nodes, demand has continued to trend down, but we are taking a multifaceted approach to overcome market conditions, including by winning new customers and increasing sales to our current customers. In addition, we continue to enhance our process technology and cost competitiveness in the mid- to long term, and we are endeavoring to diversify our portfolio, expanding into and within various applications such as high-performance computing, automotive semiconductors, 5G, and IoT. Through these efforts, we are reinforcing our overall business structure by diversifying our non-mobile customer base to stabilize results and sustain growth in all market conditions.

## [SDC]

### Industry overview

Display refers to screens in electronic devices. Active matrix technology is most commonly used in displays, including OLED (organic light emitting diode), QD-OLED (quantum dot organic light emitting diode), and TFT-LCD (thin film transistor liquid crystal display).

OLED panels use organic materials, which offer sharp contrast and color, high color gamut, and fast response rates. Such differentiating features provide advantages for use in smartphones where display features (multimedia contents, online experience, etc.) are important, and as a result, OLED adoption in the smartphone market is growing rapidly.

The market had raised concerns over the production of high-resolution, durable panels, but we overcame various technological challenges and advanced the business. OLED panels make up for the shortcomings of LCD panels, and they can be increasingly adopted into other applications in foldables, rollables, automotives, etc. The OLED market is forecasted to keep growing. QD-OLED, a self-emissive display with quantum dots (semiconductor particles a few nanometers in size) in the panel to maximize color gamut and viewing angle, is capturing attention under expectations that it will lead the premium TV and monitor markets.

### Market condition

The market for smartphone display panels is expected to slightly decrease to 1.36 billion units in 2023 from 1.38 billion units in 2022. However, for smartphone-use OLED panels, the market is expected to grow to 0.62 billion units in 2023 from 0.57 billion units in 2022, and the OLED portion of smartphone panels in 2023 is anticipated to increase to 46% from 41% in 2022 (*Omdia*, April 2023).

The market size for large display panels was 0.90 billion units in 2022, and the size is projected to remain similar in 2023 (*Omdia*, April 2023).

< Market share of smartphone panel >

| Product           | 1Q23  | 2022  | 2021  |
|-------------------|-------|-------|-------|
| Smartphone panels | 49.2% | 56.7% | 51.4% |

Global market share in revenue; figure for 1Q23 is estimate from research firm *Omdia*.

#### Business condition

The Company has continued to stay atop the mobile OLED market in terms of market share since it successfully commercialized OLED products in 2007, marking a world's first. We diversified our product group to include displays for foldable products, tablets, watches, laptops, and automotive applications, solidifying our position as the top player in the OLED display market.

With both flexible and rigid OLED, our optimal smartphone product portfolio ranges from mass-market to premium devices as we proactively address customers' specific needs; and we are recognized as having best-in-class technology through our introduction of foldable and OLED IT products with differentiated technologies and designs.

In 2023, a demand recovery is likely to take longer than expected due to global economic instability. We will endeavor to upgrade the performance of our foldable products to bring them into the mainstream; expand the application of new technologies, such as high-luminance and low-power, in line with the needs of our customers; and enhance cost competitiveness to continue to increase adoption of OLED panels in smartphone products.

Furthermore, we are diversifying our mobile panel business—which is concentrated on smartphones—as indicated by our announcement to invest in IT OLED lines in order to expand into IT, gaming, and automotive products and further solidify our business leadership.

In the large panel business, we will continue to increase our market share in the premium market by expanding the lineup of QD-OLED products and diversifying distributors.

#### **[Harman]**

#### Industry overview

Harman competes in the automotive and lifestyle audio industries. The automotive component business takes up the largest portion of Harman's business, and it operates business in areas such as digital cockpits, telematics, and car audio.

As consumers want cutting-edge technologies for connectivity and entertainment, car makers leverage Harman's automotive component solutions (involving digital cockpits, telematics, car audio, etc.) to satisfy consumer demand. In particular, recent innovations in car sharing and autonomous driving technologies continue to shape the requirements from car makers. As a result, competition is particularly fierce in the connectivity and entertainment solution markets between dominant players (e.g., Alpine, Aptiv, Continental, Mitsubishi, and Panasonic). Harman provides not only system solutions but also audio components (including speakers and amplifiers), and it is another segment where fierce competition between several major players (e.g., Bose, Pioneer, and Panasonic) is expected to drive technological advances as each firm introduces unique sound-management solutions. Competition is expected to remain intense.

Lifestyle audio business has two segments: consumer audio and professional audio solutions. Consumer audio (portable speakers, headphones, connected audio solutions, etc.) is fragmented and a handful of companies (Amazon, Beats, Bose, Ultimate Ears, etc.) are showing early signs of dominance. We expect competition to remain intense as new players try to make inroads, given the saturated market for connected homes and smart speakers. In particular, for True Wireless headphones, for which smartphone manufacturers dominate market share, is expected to grow explosively.

The professional audio solution industry (commercial audio, audio for large venues, etc., special lighting, video control solutions, etc.), led by QSC and Yamaha, is segmented by product and has seen the entrance of numerous companies offering a wide range of products and applications.

## Market condition

Amid prolonged geopolitical risks stemming from the repercussions of the Russia-Ukraine war, macroeconomic uncertainties are anticipated to continue, including ones concerning supply chain disruptions in semiconductors and raw materials as well as those over additional monetary tightening policies from central banks around the world to curb inflation.

Considering such factors, global automobile production in 2023 is forecast to grow 4% year-on-year (*S&P Global Light Vehicle Production Forecast*, March 2023).

< Market share of digital cockpit >

| Product          | 1Q23  | 2022  | 2021  |
|------------------|-------|-------|-------|
| Digital cockpits | 23.1% | 24.7% | 25.3% |

Digital cockpits refer to the digital automotive component which enables safe driving environment via infotainment system, etc.  
Company estimates based on I.H.S and LMC data (by unit).

## Business condition

Harman is positioned to stay at the forefront of the automotive market. We will maintain the quality that is synonymous with Harman brands, and we will leverage the wide range of brands that extend from mass-market through to luxury models. Additionally, Harman's relentless pursuit of innovation in both hardware and software solutions will allow consumers to extend their digitized lives from outside vehicles to inside of them, thereby strengthening the in-vehicle experiences.

The same factors that Harman relies on within the automotive market will also be used in the consumer audio and professional audio solution market. Having won three Grammy Awards and two Academy Awards, Harman's brands have earned a strong reputation amongst everyday consumers and audiophiles alike. New offerings in up-and-coming segments such as connected wireless and smart audio continue to help bring in new consumers and further enhance brand reputation.

Harman also continues to develop its Digital Transformation Solutions (DTS) business, which aims to support car manufacturers to provide a service in which UX, cloud computing, big data, mobility, and IoT are integrated into one.

Harman will cooperate with its partners to minimize any risk amid the challenging business environment marked by deteriorated macroeconomic conditions and global geopolitical instability.

## D. Financial summary, by organization

In 1Q23 by organization, DX accounted for 72.5% of revenue with reported revenue of KRW 46,222.5 billion; DS contributed approximately 21.5% with revenue of KRW 13,734.5 billion; SDC was responsible for 10.4% with revenue of KRW 6,614.2 billion; and Harman contributed 5.0% with revenue of KRW 3,165.9 billion.

In 1Q23, DX accounted for an operating profit of KRW 4,208.8 billion; DS with KRW -4,581.9 billion; SDC with a total operating profit of KRW 776.0 billion; and Harman with an operating profit of KRW 128.9 billion.

| Organization | Classification   | 1Q23      |                                | 2022      |                                | 2021      |                                |
|--------------|------------------|-----------|--------------------------------|-----------|--------------------------------|-----------|--------------------------------|
|              |                  | Amount    | Portion of corresponding total | Amount    | Portion of corresponding total | Amount    | Portion of corresponding total |
| DX Division  | Revenue          | 462,225   | 72.5%                          | 1,824,897 | 60.4%                          | 1,662,594 | 59.5%                          |

| Harman       | Revenue          | 31,659    | 5.0%                           | 132,137   | 4.4%                           | 100,399   | 3.6%                           |
|              | Operating profit | 1,289     | 20.1%                          | 8,805     | 2.0%                           | 5,991     | 1.2%                           |
|              | Total assets     | 172,735   | 2.8%                           | 171,023   | 2.9%                           | 158,874   | 2.7%                           |

Includes inter-divisional transactions.

Figures for 2021 were adjusted to reflect the organizational changes in December 2021.

### Reasonable allocation of common SG&A (selling general & administrative) expenses and assets

(1) For common SG&A expenses, specific expenses that are allocable to a specific product/model are allocated to Divisions that are responsible for such product/model. However, common expenses that cannot be attributed to a specific product/model category are reasonably allocated throughout the Company based on an allocation standard (expense-to-revenue ratio, number of personnel, etc.).

(2) For common assets, assets that can be directly allocated (inventory assets, fixed assets, investment assets, etc.) are allocated to the corresponding organizational unit. Assets that are commonly managed and cannot be directly allocated are allocated to each Division based on an allocation standard (expense-to-revenue ratio, pre-tax profit, etc.)

### III. Financial Affairs

#### 1. Financial statements

##### A. Consolidated financial statements

(KRW mil)

| Classification   | First quarter of 55 <sup>th</sup><br>March 31, 2023 | 54th<br>December 31, 2022 | 53rd<br>December 31, 2021 |

### **3. Notes to consolidated financial statements**

#### **1. General Information**

##### **1.1 Company Overview**

Samsung Electronics Co., Ltd. (“SEC”) was incorporated under the laws of the Republic of Korea in 1969 and listed its shares on the Korea Stock Exchange in 1975. SEC and its subsidiaries (collectively referred to as the “Company”) operate four business divisions: DX, DS, SDC and Harman. DX (Device eXperience) division comprises businesses for digital TVs, refrigerators, mobile phones and communication systems. DS (Device Solutions) division comprises businesses for memory, foundry, and system LSI. SDC includes display panels products. Harman division includes connected car systems, audio and visual products, enterprise automation solutions and connected services. SEC is domiciled in the Republic of Korea and is located in Suwon, the Republic of Korea.

These consolidated financial statements have been prepared in accordance with Korean International Financial Reporting Standards (“Korean IFRS”) 1110, *Consolidated Financial Statements*. SEC, as the controlling company, consolidates its 230 subsidiaries, including Samsung Display and Samsung Electronics America. The Company also applies the equity method of accounting for its 38 associates and joint ventures, including Samsung Electro-Mechanics Co., Ltd.

##### **1.2 Consolidated Subsidiaries**

## 1.4 Changes in Consolidation Scope

Changes in consolidation scope during the three-month period ended March 31, 2023 are as follows:

| Change   | Area       | Subsidiary                        | Description   |
|----------|------------|-----------------------------------|---------------|
| Included | Domestic   | Samsung Venture Capital Union #62 | Establishment |
| Excluded | America    | Dacor Holdings, Inc.              | Merger        |
|          |            | Dacor, Inc.                       |               |
|          | Europe/CIS | Red Bend Software Ltd.            | Liquidation   |

## **2. Significant Accounting Policies**

### **2.1 Basis of Presentation**

The Company maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in accordance with International Financial Reporting Standards as adopted by the Republic of Korea (“Korean IFRS”). The accompanying interim consolidated financial statements have been condensed, restructured and translated into English from the Korean language financial statements.

The interim consolidated financial statements for the three-month period ended March 31, 2023 have been prepared in accordance with Korean IFRS 1034, *Interim Financial Reporting*. These interim consolidated financial statements have been prepared in accordance with the Korean IFRS which is effective as of March 31, 2023.

#### (A) New and amended standards adopted by the Company

The Company applied the following amended standards for the first time for the annual reporting period commencing January 1, 2023:

##### *Amendments to Korean IFRS 1001, Presentation of Financial Statements*

The amendments require companies to define and disclose their 'material' accounting policy information instead of its 'significant' accounting policies. The amendments explain how an entity can identify material accounting policy information. The application of amendments does not have a significant impact on the Company's interim consolidated financial statements.

##### *Amendments to Korean IFRS 1008, Accounting Policies, Changes in Accounting Estimates and Errors*

The amendments clarify the definition of a change in accounting estimates and specify how to distinguish it from a change in accounting policies. The application of amendments does not have a significant impact on the Company's interim consolidated financial statements.

##### *Amendments to Korean IFRS 1012, Income Taxes*

The amendments add to the initial recognition exemption that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition. The application of amendments does not have a significant impact on the Company's interim consolidated financial statements.

#### (B) New and amended standards not yet adopted by the Company

The amended accounting standard issued that is not yet effective for the annual reporting period commencing January 1, 2023 and has not been early adopted by the Company is as follows:

##### *Amendments to Korean IFRS 1001, Presentation of Financial Statements*

The amendments to Korean-IFRS 1001 clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and that the classification is unaffected by management's intentions or expectations about whether an entity will exercise its right to defer settlement of a liability. The amendments also introduce a definition of settlement to make clear that settlement includes the transfer to the counterparty of the entity's own equity instruments, however, it would be excluded if an option to settle the liability by the transfer of the entity's own equity instruments is recognized separately from the liability as an equity component of a compound financial instrument. The amendments are applied retrospectively for annual periods beginning on or after January, 1 2024, with early application permitted.

## **2.2 Accounting Policies**

Material accounting policies and method of computation used in the preparation of the interim consolidated financial statements are consistent with those of the annual financial statements for the year ended December 31, 2022, except for the changes due to the application of amendments of standards described in Note 2.1 and as described below.

### (A) Income tax expense

Income tax expense for the interim period is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year. The estimated average annual effective income tax rate is applied to the pre-tax income of the interim period.

## **2.3 Convenience Translation into United States Dollar Amounts**

The US dollar amounts provided in the consolidated financial statements represent supplementary information solely for the convenience of the reader. All Korean won amounts are expressed in US dollars at the rate of ₩ 1,274.4 to \$1, the average exchange rate for the three-month period ended March 31, 2023. Such presentation is not in accordance with generally accepted accounting principles and should not be construed as a representation that the Korean won amounts shown could be readily converted, realized or settled in US dollars at this or at any other rate.

## **2.4 Material Accounting Estimates and Assumptions**

In preparing the interim consolidated financial statements, the management of the Company makes judgements, estimates and assumptions on matters which affect the application of policies and reported amounts of assets, liabilities, income and expenses. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates, by definition, seldom equal the related actual results.

Material accounting estimates and assumptions made in the preparation of the interim consolidated financial statements are consistent with those applied in the preparation of the annual consolidated financial statements for the year ended December 31, 2022, except for the estimates used to determine the income tax expense.

### 3. Financial Instruments by Category

(A) Categorizations of financial assets and liabilities as of March 31, 2023 and December 31, 2022 are as follows:

(1) As of March 31, 2023

| (In millions of Korean won)                                       | Financial assets measured at amortized cost | Financial assets measured at fair value through other comprehensive income | Financial assets measured at fair value through profit or loss | Other financial assets <sup>(*)</sup> | Total              |
|---|---|--|--|---------------------------------------|--------------------|
|   | Financial assets measured at amortized cost | Financial assets measured at fair value through other comprehensive income | Financial assets measured at fair value through profit or loss | Other financial assets <sup>(*)</sup> | Total              |

| <b>Total</b>               | <b>60,815,297</b>                                  | <b>(6,395,711)</b>  | <b>54,419,586</b> | <b>56,506,958</b> | <b>(4,319,092)</b>  | <b>52,187,866</b> |

## 6. Investments in Associates and Joint Ventures

(A) Changes in investments in associates and joint ventures for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | 2023              | 2022             |
|------------------------------------|-------------------|------------------|
| Balance as of January 1            | 10,893,869        | 8,932,251        |
| Acquisition                        | 62,182            | 6,100            |
| Disposal                           | (4,661)           | (5,153)          |
| Share of profit                    | 213,841           | 232,477          |
| Other <sup>(*)</sup>               | 33,392            | (324,070)        |
| <b>Balance as of March 31</b>      | <b>11,198,623</b> | <b>8,841,605</b> |

(\*) Other consists of dividends, impairment, and reclassification.

(B) Major investments in associates and joint ventures as of March 31, 2023 are as follows:

(1) Investments in associates

| Investee                              | Nature of relationship  | Percentage of ownership(%) <sup>(*)1</sup> | Principal business location | Fiscal period-end |
|---------------------------------------|---|--|-----------------------------|-------------------|
| Samsung Electro-Mechanics Co., Ltd.   | Manufacture and supply electronic components including passive components, circuit boards, and modules        | 23.7                                       | Korea                       | December          |
| Samsung SDS Co., Ltd.                 | Provide IT services including computer programming, system integration and management and logistical services | 22.6                                       | Korea                       | December          |
| Samsung Biologics Co., Ltd.           | Contract manufacturing of biopharmaceuticals, etc.  | 31.2                                       | Korea                       | December          |
| Samsung SDI Co., Ltd. <sup>(*)2</sup> | Manufacture and supply electronics including secondary cell batteries   | 19.6                                       | Korea                       | December          |
| Cheil Worldwide, Inc.                 | Advertising agency  | 25.2                                       | Korea                       | December          |

(\*)<sup>1</sup> Ownership represents the Company's ownership of the total ordinary shares issued by each entity.

(\*)<sup>2</sup> The Company's ownership of ordinary shares outstanding is 20.6%.

(2) Investments in joint ventures

| Investee                           | Nature of relationship with joint venture       | Percentage of ownership (%) <sup>(*)</sup> | Principal business location | Fiscal period-end |
|------------------------------------|---|--|-----------------------------|-------------------|
| Samsung Corning Advanced Glass LLC | Manufacture and supply industrial glass devices | 50.0                                       | Korea                       | December          |

<sup>(\*)</sup> Ownership represents the Company's ownership of the total ordinary shares issued by each entity.

(C) Details of investments in associates and joint ventures as of March 31, 2023 and December 31, 2022 are as follows:

(1) Investments in associates

| <i>(In millions of Korean won)</i>  |                         | <b>March 31, 2023</b>                                 |                        |

| Samsung SDS Co., Ltd.                                       | 17,472,110            | 2,026,765    | 2,149,070         |
| Samsung Biologics Co., Ltd.                                 | 22,217,309            | 17,507,239   | 18,240,411        |
| Samsung SDI Co., Ltd.                                       | 13,462,673            | 9,895,065    | 7,956,440         |
| Cheil Worldwide, Inc.                                       | 29,038,075            | 540,689      | 669,328           |

(G) Other matters

On July 12, 2018, the Korea Securities and Futures Commission determined an initial measure following an investigation relating to Samsung Biologics Co., Ltd., an associate of the Company, and its accounting for its investment in Samsung Bioepis Co., Ltd, a joint venture between Biogen Therapeutics Inc. and Samsung Biologics Co., Ltd. This measure included a recommendation to dismiss the director in charge, prosecution charges, and external auditor designation by the regulator, on the basis that the Joint Venture Agreement was not disclosed in the notes to the financial statements. On November 14, 2018, the Korea Securities and Futures Commission determined a second measure which included a penalty of ₩ 8,000 million, a recommendation to dismiss the CEO, a requirement to restate its financial statements, and further prosecution charges.

To prove justification of its accounting treatment, Samsung Biologics Co., Ltd. filed a suit for cancellation of the aforementioned measures to the Seoul Administrative Court, which is currently in progress. On September 24, 2020, the Seoul Administrative Court announced a decision to cancel the first measure charged by the Korea Securities and Futures Commission and suspended its execution until the final rulings of appeal. On October 16, 2020, the Korea Securities and Futures Commission appealed the decision and the litigation is in progress at Seoul High Court. Samsung Biologics Co., Ltd. also filed for suspending the execution of the initial and second measures. On January 22, 2019 and February 19, 2019, the Seoul Administrative Court pronounced decisions to suspend the second and initial measures, respectively, until the final rulings. The Korea Securities and Futures Commission immediately appealed against the decisions but the appeals were dismissed by the Seoul High Court on May 13, 2019 and May 24, 2019, in relation to the second and first measures, respectively. On May 23, 2019 and June 10, 2019, the Korea Securities and Futures Commission re-appealed against the dismissals relating to the second and first measures, respectively. On September 6, 2019 and October 11, 2019, the Supreme Court of Korea dismissed the Korea Securities and Futures Commission's re-appeal relating to the second and first measures, respectively, and confirmed the decision to suspend the execution of these measures.

Although the future outcome of the administrative litigation cannot be estimated, should Samsung Biologics Co., Ltd. be required to restate its financial statements to amend its historical accounting treatment relating to its investment in Samsung Bioepis Co., Ltd., the Company's share of profit or loss relating to its equity method investment, the amount of investment in associates, and retained earnings, for the years ended December 31, 2015 and onwards, and the profit on disposal of investment for the year ended December 31, 2016, may be impacted. Given the timing of completion and the final result of the administrative litigation between Samsung Biologics Co., Ltd. and the Korea Securities and Futures Commission is uncertain and cannot currently be estimated, it is not possible for the Company to recognize the effects of these proceedings in the current period consolidated financial statements.

## 7. Property, Plant and Equipment

(A) Changes in property, plant and equipment for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>   | <b>2023</b>        | <b>2022</b>        |
|--------------------------------------|--------------------|--------------------|
| Balance as of January 1              | 168,045,388        | 149,928,539        |
| Acquisition and capital expenditures | 11,343,333         | 8,098,867          |

| Cost of sales                                  | 7,863,833        | 8,122,027        |
| Selling and administrative expenses, and other | 937,062          | 887,004          |
| <b>Total</b>                                   | <b>8,800,895</b> | <b>9,009,031</b> |

(C) Right-of-use assets as of March 31, 2023 amount to ₩ 5,126,909 million (December 31, 2022: ₩ 4,917,609 million). During the three-month periods ended March 31, 2023 and 2022, newly recognized right-of-use assets amount to ₩ 604,534 million and ₩ 176,168 million, respectively, with relevant depreciation of ₩ 288,193 million and ₩ 253,084 million, respectively.

## 8. Intangible Assets

(A) Changes in intangible assets for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>2023</b>       | <b>2022</b>       |
|------------------------------------|-------------------|-------------------|
| Balance as of January 1            | 20,217,754        | 20,236,244        |
| External acquisitions              | 3,805,353         | 334,725           |
| Amortization                       | (785,598)         | (770,477)         |
| Disposals/scrap/impairment         | (15,204)          | (3,408)           |
| Other <sup>(*)</sup>               | 395,398           | 213,610           |
| <b>Balance as of March 31</b>      | <b>23,617,703</b> | <b>20,010,694</b> |

(\*) Other includes the cumulative effect of changes in foreign currency exchange rates and business combinations.

(B) Details of amortization of intangible assets for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>            | <b>2023</b>    | <b>2022</b>    |
|---|----------------|----------------|
| Cost of sales                                 | 552,375        | 531,875        |
| Selling and administrative expenses and other | 233,223        | 238,602        |
| <b>Total</b>                                  | <b>785,598</b> | <b>770,477</b> |

## 9. Borrowings

Details of the carrying amounts of borrowings as of March 31, 2023 and December 31, 2022 are as follows:

| (In millions of Korean won)                    | Financial institutions   | Interest rates (%)<br>as of March 31, |                | March 31, 2023 | December 31, 2022 |
|--|--------------------------|---------------------------------------|----------------|----------------|-------------------|
|  |                          | 2023                                  | March 31, 2023 |                |                   |
| <b>Short-term borrowings</b>                   |                          |                                       |                |                |                   |
| Collateralized borrowings <sup>(*)1</sup>      | Woori Bank and others    | 0.1~18.5                              |                | 3,462,249      | 3,569,357         |

| Less: Discounts                                      |            |           |  |                | (512)                          | (543)                          |
| Add: Premium   |            |           |  |                | 3,985                          | 4,261                          |
| Less: Current portion                                |            |           |  |                | (6,416)                        | (6,228)                        |
| <b>Total</b>   |            |           |  |                | 551,172                        | 536,093                        |

(\*)1 US dollar denominated straight bonds are repaid annually for twenty years after a ten-year grace period from the date of issuance. Interest is paid semi-annually.

(\*)2 Harman International Industries, Inc. issued US dollar denominated debentures. These debentures are repaid on the maturity and interest is paid semi-annually.

## 11. Net Defined Benefit Liabilities (Assets)

- (A) Details of net defined benefit liabilities (assets) recognized in the statements of financial position as of March 31, 2023 and December 31, 2022 are as follows:

| <i>(In millions of Korean won)</i>                    | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|---|-----------------------|--------------------------|
| Present value of funded defined benefit obligations   | 14,064,523            | 13,639,460               |
| Present value of unfunded defined benefit obligations | 352,976               | 370,848                  |
| <b>Subtotal</b>                                       | <b>14,417,499</b>     | <b>14,010,308</b>        |
| Fair value of plan assets                             | (19,448,359)          | (19,593,910)             |
| <b>Total</b>  | <b>(5,030,860)</b>    | <b>(5,583,602)</b>       |

- (B) The components of defined benefit costs recognized in profit or loss for the three-month periods ended March 31, 2023 and 2022 relating to defined benefit plans are as follows:

| <i>(In millions of Korean won)</i> | <b>2023</b>    | <b>2022</b>    |
|------------------------------------|----------------|----------------|
| Current service cost               | 323,685        | 347,661        |
| Net interest income                | (89,746)       | (24,885)       |
| Past service cost                  | (255)          | (77)           |
| Other                              | 7,929          | 1,573          |
| <b>Total</b>                       | <b>241,613</b> | <b>324,272</b> |

- (C) The expenses related to defined benefit plans recognized in the statements of profit or loss for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>            | <b>2023</b>    | <b>2022</b>    |
|---|----------------|----------------|
| Cost of sales                                 | 103,181        | 139,754        |
| Selling and administrative expenses and other | 138,432        | 184,518        |
| <b>Total</b>                                  | <b>241,613</b> | <b>324,272</b> |

## 12. Provisions

Changes in the provisions for the three-month period ended March 31, 2023 are as follows:

| <i>(In millions of Korean won)</i> | <b>Warranty (A)</b> | <b>Royalty expenses (B)</b> | <b>Long-term incentives (C)</b> | <b>Other (D, E)</b> | <b>Total</b>     |
|------------------------------------|---------------------|-----------------------------|---------------------------------|---------------------|------------------|
| Balance as of January 1            | 2,309,726           | 1,546,606                   | 783,263                         | 3,133,830           | 7,773,425        |
| Charged to profit or loss          | 649,953             | 179,511                     | 71,119                          | 1,247,489           | 2,148,072        |
| Payment                            | (538,256)           | (112,439)                   | (44,757)                        | (165,459)           | (860,911)        |
| Other <sup>(*)</sup>               | 69,749              | (15,241)                    | 4,278                           | 72,918              | 131,704          |
| <b>Balance as of March 31</b>      | <b>2,491,172</b>    | <b>1,598,437</b>            | <b>813,903</b>                  | <b>4,288,778</b>    | <b>9,192,290</b> |

<sup>(\*)</sup> Other includes effects of changes in foreign currency exchange rates.

- (A) The Company accrues warranty reserves for estimated costs of quality assurance, exchanges, repairs, recalls, and future services based on historical experience and terms of warranty programs.
- (B) The Company recognizes provisions for the estimated royalty expenses that are under negotiation with counterparties. The timing and amount of payment depend on the settlement of the negotiations.
- (C) The Company has a long-term incentive plan for its executives based on a three-year management performance criteria and recognizes a provision for the estimated incentive cost.
- (D) The Company records provisions for future expenses expected to be incurred for products that have been discontinued from manufacturing and sales.
- (E) The Company makes provisions for the emission in excess of the emission rights held by the Company for the applicable years. Details of emission rights and liabilities as of March 31, 2023 are as follows:

- (1) The amount of emission rights allocated free of charge in the current commitment period and the estimated volume of emission as of March 31, 2023 are as follows:

| <i>(In ten thousand metric tons)</i>     | <b>March 31, 2023</b> |       |
|--|-----------------------|-------|
| Emission rights allocated free of charge |                       | 1,711 |
| Estimated volume of emission             |                       | 1,903 |

- (2) Changes in the emission rights for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>2023</b>   | <b>2022</b>   |
|------------------------------------|---------------|---------------|
| Balance as of January 1            | 19,567        | 46,074        |
| Increase (decrease)                | -             | -             |
| <b>Balance as of March 31</b>      | <b>19,567</b> | <b>46,074</b> |

- (3) Changes in emissions liabilities for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>2023</b>   | <b>2022</b>   |
|------------------------------------|---------------|---------------|
| Balance as of January 1            | 32,838        | 45,049        |
| Charged to profit or loss          | (1)           | 12,462        |
| Submission                         | -             | -             |
| <b>Balance as of March 31</b>      | <b>32,837</b> | <b>57,511</b> |

### 13. Commitments and Contingencies

As of March 31, 2023, the Company is involved in various claims, disputes, and investigations conducted by regulatory bodies that arose during the normal course of business with numerous entities. Although the outflow of resources and timing of these matters are uncertain, the Company believes the outcome will not have a material impact on the financial position of the Company.

### 14. Contract Liabilities

The Company has recognized contract liabilities related to contracts with customers as follows:

| <i>(In millions of Korean won)</i>  | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|-------------------------------------|-----------------------|--------------------------|
| Contract liabilities <sup>(*)</sup> | 12,193,798            | 13,255,682               |

<sup>(\*)</sup> Contract liabilities include advances received, accrued expenses, other current liabilities and others.

### 15. Share Capital

As of March 31, 2023, the Company's total number of authorized shares is 25,000,000,000 shares (₩ 100 per share). The Company has issued 5,969,782,550 shares of ordinary shares and 822,886,700 shares of preference shares as of March 31, 2023, excluding retired shares. As of March 31, 2023, the number of shares outstanding is the same as the number of shares issued above, and no changes were made to the number of shares outstanding during the three-month periods ended March 31, 2023 and 2022. Due to the retirement of shares, the total par value of the shares issued is ₩ 679,267 million (ordinary shares of ₩ 596,978 million and preference shares of ₩ 82,289 million), which does not agree with paid-in capital of ₩ 897,514 million.

### 16. Retained Earnings

(A) Retained earnings as of March 31, 2023 and December 31, 2022 consist of the following:

| <i>(In millions of Korean won)</i> | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|------------------------------------|-----------------------|--------------------------|
| Discretionary reserve, etc.        | 207,927,112           | 192,294,496              |
| Unappropriated retained earnings   | 128,954,740           | 145,651,911              |
| <b>Total</b>                       | <b>336,881,852</b>    | <b>337,946,407</b>       |

(B) Details of interim dividends are as follows:

| <i>(In millions of Korean won and number of shares)</i> | <b>2023</b>                          | <b>2022</b>                  |
|---|--------------------------------------|------------------------------|
| Number of shares eligible for dividends                 | Ordinary shares<br>Preference shares | 5,969,782,550<br>822,886,700 |

|   |                                      | 2,452,154                    |

## 17. Other Components of Equity

Other components of equity as of March 31, 2023 and December 31, 2022 are as follows:

| <i>(In millions of Korean won)</i>   | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|--|-----------------------|--------------------------|
| Gain on valuation of financial assets at fair value through other comprehensive income | 3,735,433             | 2,749,109                |
| Share of other comprehensive gain (loss) of associates and joint ventures              | 274,963               | 114,987                  |
| Gain on overseas business translation  | 6,030,730             | 1,039,197                |
| Remeasurement of net defined benefit liabilities (assets)                              | (2,299,210)           | (2,051,610)              |
| Other  | 94,753                | 86,645                   |
| <b>Total</b>   | <b>7,836,669</b>      | <b>1,938,328</b>         |

## 18. Expenses by Nature

Expenses by nature for the three-month periods ended March 31, 2023 and 2022 consist of the following:

| <i>(In millions of Korean won)</i>                    | <b>2023</b>       | <b>2022</b>       |
|---|-------------------|-------------------|
| Changes in finished goods, work in process, and other | (2,216,760)       | (2,559,003)       |
| Raw materials used, merchandise purchased, and other  | 27,196,920        | 28,066,242        |
| Wages and salaries                                    | 7,901,166         | 7,732,949         |
| Post-employment benefit                               | 278,289           | 350,896           |
| Depreciation  | 8,800,895         | 9,009,031         |
| Amortization  | 785,598           | 770,477           |
| Welfare   | 1,541,276         | 1,401,936         |
| Utilities   | 1,861,110         | 1,398,568         |
| Outsourcing   | 1,680,919         | 1,482,533         |
| Advertising   | 1,145,343         | 1,467,701         |
| Sales promotion                                       | 1,672,952         | 1,823,398         |
| Other   | 12,457,485        | 12,715,361        |
| <b>Total<sup>(*)</sup></b>                            | <b>63,105,193</b> | <b>63,660,089</b> |

<sup>(\*)</sup> Equal to the sum of cost of sales and selling and administrative expenses in the consolidated statements of profit or loss.

## 19. Selling and Administrative Expenses

Selling and administrative expenses for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>         | 2023              | 2022              |
|--|-------------------|-------------------|
| <b>Selling and administrative expenses</b> |                   |                   |
| Wages and salaries                         | 2,072,409         | 1,995,353         |
| Post-employment benefit                    | 69,512            | 77,294            |
| Commissions                                | 2,103,924         | 1,730,391         |
| Depreciation                               | 403,646           | 378,741           |
| Amortization                               | 168,939           | 168,494           |
| Advertising                                | 1,145,343         | 1,467,701         |
| Sales promotion                            | 1,672,952         | 1,823,398         |
| Transportation                             | 414,405           | 857,633           |
| Service charges                            | 1,021,736         | 893,544           |
| Other                                      | 1,446,500         | 1,273,251         |

| <b>Research and development expenses</b>   |                   |                   |
| Research and development                   | 6,578,734         | 5,922,232         |
| <b>Total</b>                               | <b>17,098,100</b> | <b>16,588,032</b> |

## 20. Other Non-Operating Income and Expenses

Details of other non-operating income and expenses for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>                | 2023           | 2022           |
|---|----------------|----------------|
| <b>Other non-operating income</b>                 |                |                |
| Dividend income                                   | 47,894         | 268,509        |
| Rental income                                     | 37,942         | 34,584         |
| Gain on disposal of property, plant and equipment | 34,449         | 50,420         |
| Other   | 384,010        | 346,680        |
| <b>Total</b>                                      | <b>504,295</b> | <b>700,193</b> |
| <br><b>Other non-operating expenses</b>           |                |                |
| Loss on disposal of property, plant and equipment | 9,392          | 4,196          |
| Donations   | 73,083         | 89,560         |
| Other   | 121,507        | 359,354        |
| <b>Total</b>                                      | <b>203,982</b> | <b>453,110</b> |

## 21. Financial Income and Expenses

Details of financial income and expenses for the three-month periods ended March 31, 2023 and 2022 are as follows:

| (In millions of Korean won)   | 2023             | 2022             |
|---|------------------|------------------|
| <b>Financial income</b>   |                  |                  |
| Interest income   | 1,060,446        | 369,032          |
| Interest income from financial assets measured at amortized cost                    | 1,060,380        | 368,967          |
| Interest income from financial assets measured at fair value through profit or loss | 66               | 65               |
| Foreign exchange differences  | 3,120,012        | 2,608,603        |
| Gains from derivatives  | 447,591          | 524,554          |
| <b>Total</b>  | <b>4,628,049</b> | <b>3,502,189</b> |
| <br>(In millions of Korean won)   |                  |                  |
| <b>Financial expenses</b>   |                  |                  |
| Interest expenses   | 291,677          | 149,231          |
| Interest expenses from financial liabilities measured at amortized cost             | 151,856          | 74,663           |
| Other financial liabilities   | 139,821          | 74,568           |
| Foreign exchange differences  | 3,375,878        | 2,460,682        |
| Losses from derivatives   | 288,446          | 423,405          |
| <b>Total</b>  | <b>3,956,001</b> | <b>3,033,318</b> |

The Company recognizes foreign exchange gains and losses arising from foreign currency transactions and translation as financial income and expenses.

## 22. Income Tax Expense

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year. The average annual tax rate expected as of March 31, 2023 to be effective for the year ended December 31, 2023 is 13.8%.

## 23. Earnings per Share

### (A) Basic earnings per share

Basic earnings per share for the three-month periods ended March 31, 2023 and 2022 are calculated as follows:

#### (1) Ordinary shares

| <i>(In millions of Korean won, thousands of number of shares)</i>  | <b>2023</b> | <b>2022</b>  |
|--|-------------|--------------|
| Profit for the period attributable to owners of the parent company | 1,401,252   | 11,129,094   |
| Profit for the period available for ordinary shares                | 1,231,500   | 9,780,878    |
| Weighted-average number of ordinary shares outstanding             | 5,969,783   | 5,969,783    |
| <b>Basic earnings per ordinary share (in Korean won)</b>           | <b>206</b>  | <b>1,638</b> |

#### (2) Preference shares

| <i>(In millions of Korean won, thousands of number of shares)</i>  | <b>2023</b> | <b>2022</b>  |
|--|-------------|--------------|
| Profit for the period attributable to owners of the parent company | 1,401,252   | 11,129,094   |
| Profit for the period available for preference shares              | 169,752     | 1,348,216    |
| Weighted-average number of preference shares outstanding           | 822,887     | 822,887      |
| <b>Basic earnings per preference share (in Korean won)</b>         | <b>206</b>  | <b>1,638</b> |

### (B) Diluted earnings per share

The Company does not have dilutive potential ordinary shares and as a result, basic earnings per share and diluted earnings per share are the same for the three-month periods ended March 31, 2023 and 2022.

## 24. Statements of Cash Flows

The Company used the indirect method to present cash flows from operating activities. Adjustments and changes in assets and liabilities arising from operating activities for the three-month periods ended March 31, 2023 and 2022 are as follows:

- Adjustments

| <i>(In millions of Korean won)</i>                | 2023              | 2022              |
|---|-------------------|-------------------|
| Adjustments:                                      |                   |                   |
| Income tax expense                                | 251,780           | 3,745,212         |
| Financial income                                  | (2,267,376)       | (1,745,834)       |
| Financial expenses                                | 1,797,505         | 1,462,863         |
| Post-employment benefits                          | 278,289           | 350,896           |
| Depreciation                                      | 8,800,895         | 9,009,031         |
| Amortization                                      | 785,598           | 770,477           |
| Bad debt expenses                                 | 67,557            | 11,425            |
| Dividend income                                   | (47,894)          | (268,509)         |
| Share of profit of associates and joint ventures  | (213,841)         | (232,477)         |
| Gain on disposal of property, plant and equipment | (34,449)          | (50,420)          |
| Loss on disposal of property, plant and equipment | 9,392             | 4,196             |
| Loss on valuation of inventories                  | 2,475,649         | 772,044           |
| Others  | (195,008)         | 76,826            |
| <b>Total</b>                                      | <b>11,708,097</b> | <b>13,905,730</b> |

- Changes in assets and liabilities arising from operating activities

| <i>(In millions of Korean won)</i>           | 2023               | 2022                |
|--|--------------------|---------------------|
| Changes in assets and liabilities :          |                    |                     |
| Decrease (increase) in trade receivables     | 411,960            | (2,369,191)         |
| Decrease (increase) in non-trade receivables | 1,151,428          | (566,904)           |
| Increase in prepaid expenses                 | (422,761)          | (520,881)           |
| Increase in inventories                      | (3,731,787)        | (6,407,793)         |
| Increase in trade payables                   | 1,071,670          | 616,577             |
| Decrease in other payables                   | (4,473)            | (1,164,358)         |
| Increase (decrease) in advances received     | (47,042)           | 223,193             |
| Decrease in withholdings                     | (528,193)          | (385,713)           |
| Decrease in accrued expenses                 | (5,169,031)        | (3,120,255)         |
| Increase in provisions                       | 1,287,161          | 406,978             |
| Payment of post-employment benefits          | (162,758)          | (142,330)           |
| Other  | (296,713)          | (802,638)           |
| <b>Total</b>                                 | <b>(6,440,539)</b> | <b>(14,233,315)</b> |

For the three-month periods ended March 31, 2023 and 2022, cash outflows from principal portion of lease liabilities (financial activities) amount to ₩ 261,755 million and ₩ 238,374 million, respectively, and cash outflows due to interest expenses (operating activities) in relation to the lease liabilities amount to ₩ 45,462 million and ₩ 30,012 million, respectively.

## **25. Financial Risk Management**

The Company's financial risk management focuses on minimizing market risk, credit risk, and liquidity risk arising from operating activities. To mitigate these risks, the Company implements and operates a financial risk policy and program that closely monitors and manages such risks. In addition, the Company uses derivatives to hedge certain risk exposure.

The finance team mainly carries out the Company's financial risk management. After implementing the global financial risk management policies, the finance team periodically measures, evaluates, and hedges financial risks and also establishes and implements the global financial risk management policy.

The Company also manages foreign exchange risk by monitoring foreign exchange rate fluctuations through local financial centers in the major regions (United States, United Kingdom, Singapore, China, Brazil, and Russia), which act as an agent for the subsidiaries in each region to manage foreign exchange transactions. In addition, local finance centers in the major regions manage liquidity risk through a globally integrated financial structure.

The Company's financial assets that are under financial risk management are comprised of cash and cash equivalents, short-term financial instruments, financial assets at amortized cost, trade receivables and others. The Company's financial liabilities under financial risk management are comprised of trade payables, borrowings, and others.

(A) Market risk

(1) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from its global operations performed in currencies other than its functional currency. The major currencies that the Company is exposed to foreign exchange risk are the US dollar, Euro, and Indian Rupee.

The Company focuses on minimizing the impact of foreign exchange fluctuation by maintaining matching levels of assets and liabilities denominated in each foreign currency. To minimize exchange position, the Company's foreign exchange management policy requires normal business transactions, including import and export, as well as financing transactions such as depositing and borrowing, to be in local currency or match as closely as possible cash inflows and outflows incurred in the respective foreign currencies. Moreover, the Company periodically evaluates and monitors the foreign exchange risk to efficiently mitigate such risk, and the speculative foreign exchange transactions are strictly prohibited.

(2) Interest rate risk

Risk of changes in interest rates for floating interest rate financial instruments is defined as the risk that the fair value of components of the statements of financial position, and future cash flows of interest income (expenses) of a financial instrument, will fluctuate because of changes in market interest rates. The Company's position with regard to interest rate risk exposure is mainly driven by its floating interest rate debt obligations and interest-bearing deposits. The Company has implemented policies and practices to minimize uncertainty arising from changes in interest rates and financial expenses.

(3) Price risk

The Company's investment portfolio consists of direct and indirect investments in equity instruments classified as financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss, which is in line with the Company's strategy.

As of March 31, 2023 and 2022, price fluctuation of marketable equity securities (listed stocks) by 1% would result in changes in other comprehensive income (before income tax) of ₩ 111,415 million and ₩ 107,834 million, respectively, and changes in profit before tax of ₩ 5,354 million and ₩ 3,750 million, respectively.

(B) Credit risk

Credit risk arises during the normal course of transactions and investing activities where clients or other parties fail to discharge an obligation. The Company monitors and sets the client's and counterparty's credit limit on a periodic basis based on the client's and counterparty's financial conditions, default history and other factors. Adequate insurance coverage is maintained for trade receivables related to trading partners situated in higher risk countries.

Credit risk can arise from transactions with financial institutions which include financial instrument transactions such as cash and cash equivalents, deposits, and derivative instruments. To minimize such risk, the Company transacts only with banks which have a strong international credit rating (S&P A and above), and all new transactions with financial institutions with no prior transaction history are approved, managed and monitored by the Company's finance team and the local finance centers. The Company generally enters into a financial agreement with no restrictions, such as debt ratio covenants, provision of collateral and/or repayment of loans/borrowings. The Company requires separate approvals for contracts with restrictions.

As of the reporting date, the Company estimates that its maximum exposure to credit risk is the carrying amount of its financial assets, net of impairment losses.

(C) Liquidity risk

Due to large investments made by the Company, maintaining adequate levels of liquidity is critical. The Company strives to achieve this goal by periodically forecasting its cash balance, estimating required cash levels, and managing cash inflows and outflows.

The Company manages its liquidity risk by periodically forecasting projected cash flows. The Company maintains a liquidity management process which provides additional financial support from the local finance center and the Company. The Cash Pooling program allows the sharing of surplus funds among entities and contributes to minimizing liquidity risk and strengthening the Company's competitive position by reducing financing burden and financial expenses.

The Company secures credit lines for its overseas subsidiaries by means of payment guarantees for the overseas subsidiaries' large liquidity needs.

(D) Capital risk management

The purpose of capital management is to maintain a sound capital structure. The Company monitors capital on the basis of credit ratings and debt ratio. Debt ratio is calculated by dividing total liabilities by total equity in the financial statements.

The Company has maintained an AA- credit rating from S&P and Aa2 from Moody's as of March 31, 2023.

The total liabilities to equity ratios as of March 31, 2023 and December 31, 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|------------------------------------|-----------------------|--------------------------|
| Total liabilities                  | 94,292,361            | 93,674,903               |
| Total equity                       | 359,799,416           | 354,749,604              |
| <b>Debt ratio</b>                  | 26.2%                 | 26.4%                    |

(E) Fair value measurement

- (1) Carrying amounts and fair values of financial instruments by category as of March 31, 2023 and December 31, 2022 are as follows:

| (In millions of Korean won)                                       | March 31, 2023     |                                   | December 31, 2022  |                                   |
|---|--------------------|-----------------------------------|--------------------|-----------------------------------|
|   | Carrying amount    | Fair value                        | Carrying amount    | Fair value                        |
| <b>Financial assets</b>   |                    |                                   |                    |                                   |

| Other   | -                 | 373,176 | 22,491    | 395,667       |
| <b>2) Liabilities</b>   |                   |         |           |               |
| Current portion of debentures                                     | -                 | 6,580   | -         | 6,580         |
| Debentures  | -                 | 521,129 | -         | 521,129       |
| Other   | -                 | 354,364 | 7,404     | 361,768       |

The levels of the fair value hierarchy and its application to financial assets and liabilities are described below.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in Level 1. The instruments included in Level 1 are listed equity investments, most of which are classified as financial assets at fair value through other comprehensive income.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where available and rely as little as possible on entity-specific estimates. If all significant inputs required to measure the fair value of an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs are not based on observable market data, the instrument is included in Level 3.

The Company performs the fair value measurements required for financial reporting purposes, including Level 3 fair values and discusses valuation processes and results in line with the financial reporting timelines. The Company's policy is to recognize transfers between levels at the end of the reporting period, if corresponding events or changes in circumstances have occurred.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments
- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the reporting date, with the resulting value discounted to present value

Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments. For trade and other receivables that are classified as current assets, the book value approximates a reasonable estimate of fair value.

### (3) Valuation technique and the inputs

The Company utilizes a present value technique to discount future cash flows using respective proper interest rate for corporate bonds, government and public bonds, and bank debentures that are classified as Level 2 in the fair value hierarchy.

The following table presents the valuation technique and the inputs used for major financial instruments classified as Level 3 as of March 31, 2023.

*(In millions of Korean won and percentage)*

| Classification  | Fair value | Valuation technique             | Level 3 inputs                   | Input range     |
|---|------------|---------------------------------|----------------------------------|-----------------|
| <b>Financial assets at fair value through other comprehensive income</b>  |            |                                 |                                  |                 |
| Samsung Venture Investment  | 31,357     | Discounted cash flow            | Permanent growth rate            | 1.0%            |
|   |            |                                 | Weighted average cost of capital | 19.8%           |
| MiCo Ceramics Co., Ltd.   | 30,022     | Discounted cash flow and others | Permanent growth rate            | 0.0%            |
|   |            |                                 | Weighted average cost of capital | 14.2%           |
| TCL China Star Optoelectronics Technology Co., Ltd. (CSOT)                | 968,287    | Discounted cash flow            | Permanent growth rate            | 0.0%            |
|   |            |                                 | Weighted average cost of capital | 11.2%           |
| China Star Optoelectronics Semiconductor Display Technology Ltd. (CSOSDT) | 225,002    | Discounted cash flow            | Permanent growth rate            | 0.0%            |
|   |            |                                 | Weighted average cost of capital | 11.2%           |
| <b>Others</b>   |            |                                 |                                  |                 |
| Call option on equity instruments   | 263,536    | Binomial model                  | Risk-free discount rate          | 3.3%            |
|   |            |                                 | Price volatility                 | 57.4%           |
| Put option on equity instruments  | 25,684     | Binomial model                  | Risk-free discount rate          | 3.6%~4.4%, 2.5% |
|   |            |                                 | Price volatility                 | 26.9%, 30.4%    |

(4) Changes in Level 3 instruments for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>              | <b>2023</b> | <b>2022</b> |
|---|-------------|-------------|
| <b>Financial assets</b>                         |             |             |
| Balance as of January 1                         | 3,303,227   | 3,430,214   |
| Acquisitions                                    | 45,261      | 76,803      |
| Disposals                                       | (22,638)    | (20,629)    |
| Amount recognized in profit for the period      | 256,578     | 59,233      |
| Amount recognized in other comprehensive income | (298,342)   | 51,749      |
| Other   | (620)       | (14,303)    |
| Balance as of March 31                          | 3,283,466   | 3,583,067   |

| <i>(In millions of Korean won)</i>         | <b>2023</b> | <b>2022</b> |
|--|-------------|-------------|
| <b>Financial liabilities</b>               |             |             |
| Balance as of January 1                    | 7,404       | 5,438       |
| Amount recognized in profit for the period | -           | -           |
| Other                                      | -           | -           |
| Balance as of March 31                     | 7,404       | 5,438       |

(5) Sensitivity analysis for recurring fair value measurements categorized within Level 3

Sensitivity analysis of financial instruments is performed to measure favorable and unfavorable changes in the fair value of financial instruments which are affected by the unobservable parameters, using a statistical technique. When the fair value is affected by more than two input parameters, the amounts represent the most favorable or unfavorable.

The results of the sensitivity analysis for effect on income or loss before tax from changes in inputs for major financial instruments which are categorized within Level 3 and subject to sensitivity analysis are as follows:

| <i>(In millions of Korean won)</i>  | <b>Favorable changes</b> |                       | <b>Unfavorable changes</b> |                       |
|---|--------------------------|-----------------------|----------------------------|-----------------------|
|   | <b>Classification</b>    | <b>Profit or loss</b> | <b>Equity</b>              | <b>Profit or loss</b> |
| Financial assets at fair value through other comprehensive income <sup>(*)1</sup> | -                        | 130,128               | -                          | (91,747)              |
| Others <sup>(*)2</sup>  | 79,135                   | -                     | (70,752)                   | -                     |

<sup>(\*)1</sup> For equity securities, changes in fair value are calculated with the correlation between the growth rate (-1%~1%) and the discount rate, which are significant unobservable inputs.

<sup>(\*)2</sup> Changes in fair value were calculated based on the correlation between underlying asset price (20%) and price volatility (10%), which are significant unobservable inputs.

## 26. Segment Information

### (A) Operating segment information

The chief operating decision-maker has been identified as the Management Committee. The Company determines operating segments based on the units reported to the Management Committee. The Management Committee reviews the operating profits of each operating segment in order to assess performance and to make strategic decisions regarding the allocation of resources to each segment.

Sales revenue consists mostly of product sales. The operating segments are product-based and are identified based on the internal organization and revenue streams. As of the reporting date, the operating segments are comprised of DX, DS, SDC, Harman, and others.

The segment information including depreciation, amortization and operating profits is prepared after adjusting intercompany transactions. Total assets and liabilities of each operating segment are excluded from the disclosure as these have not been provided regularly to the Management Committee.

#### (1) For the three-month period ended March 31, 2023

| <i>(In millions of Korean won)</i> | <b>DX</b>  | <b>DS</b>   | <b>SDC</b> | <b>Harman</b> | <b>Intercompany reconciliations</b> | <b>Total<sup>(*)</sup></b> |
|------------------------------------|------------|-------------|------------|---------------|-------------------------------------|----------------------------|

(\*)1 Balances due from and to separate entities that are related parties of the Company.

(\*)2 Payables and others include lease liabilities.

(\*)3 Although these entities are not related parties of the Company in accordance with *Korean IFRS 1024*, they belong to the same large enterprise group in accordance with the Monopoly Regulation and Fair Trade Act.

- (C) For the three-month periods ended March 31, 2023 and 2022, the Company invested ₩ 62,182 million and ₩ 6,100 million, respectively, in associates and joint ventures. In addition, the Company recovered ₩ 4,661 million and ₩ 5,153 million, respectively, of investments in associates and joint ventures for the three-month periods ended March 31, 2023 and 2022.
- (D) For the three-month periods ended March 31, 2023 and 2022, the Company declared dividend of ₩ 412,942 million and ₩ 421,609 million, respectively, to related parties. As of March 31, 2023, the dividend payable to related parties amounted to ₩ 412,942 million. In addition, for the three-month periods ended March 31, 2023 and 2022, the Company declared dividends of ₩ 32,058 million and ₩ 32,058 million, respectively, to the entities that are not related parties of the Company in accordance with Korean IFRS 1024, but belong to the same conglomerate according to the Monopoly Regulation and Fair Trade Act. As of March 31, 2023, dividend payables to the entities that are not in scope of Korean IFRS 1024 amounted to ₩ 32,058 million.
- (E) For the three-month period ended March 31, 2023, the Company entered into new lease agreements with its related parties amounted to ₩ 50 million (none for the three-month period ended March 31, 2022), and the lease payments made to the related parties amounted to ₩ 5,089 million and ₩ 6,180 million, respectively.
- (F) Key management compensation

The compensation paid or payable to key management (executive directors) for their services for the three-month periods ended March 31, 2023 and 2022 consists of:

| <i>(In millions of Korean won)</i> | <b>2023</b> | <b>2022</b> |
|------------------------------------|-------------|-------------|
| Short-term employee benefits       | 3,330       | 3,415       |
| Post-employment benefits           | 139         | 127         |
| Other long-term employee benefits  | 1,959       | 2,072       |

The above interim separate statements of cash flows should be read in conjunction with the accompanying notes.

## **5. Non to non-consolidated financial statements**

### **1. General Information**

Samsung Electronics Co., Ltd. (the “Company”) was incorporated under the laws of the Republic of Korea in 1969 and listed its shares on the Korea Stock Exchange in 1975. The Company operates two business divisions: Device eXperience (“DX”) and Device Solutions (“DS”). DX division comprises businesses for digital TVs, refrigerators, mobile phones, and communication systems. DS division includes semiconductor products such as memory, foundry and system LSI. The Company is domiciled in the Republic of Korea and is located in Suwon, the Republic of Korea.

These financial statements have been prepared in accordance with Korean International Financial Reporting Standards (“Korean IFRS”) 1027, *Separate Financial Statements*.

### **2. Significant Accounting Policies**

#### **2.1 Basis of Presentation**

The Company maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in accordance with International Financial Reporting Standards as adopted by the Republic of Korea (“Korean IFRS”). The accompanying interim separate financial statements have been condensed, restructured and translated into English from the Korean language financial statements.

The interim separate financial statements for the three-month period ended March 31, 2023 have been prepared in accordance with Korean IFRS 1034, *Interim Financial Reporting*. These interim separate financial statements have been prepared in accordance with the Korean IFRS which is effective as of March 31, 2023.

(A) New and amended standards adopted by the Company

The Company applied the following amended standards for the first time for the annual reporting period commencing January 1, 2023:

Amendments to Korean IFRS 1001, *Presentation of Financial Statements*

The amendments require companies to define and disclose their 'material' accounting policy information instead of its 'significant' accounting policies. The amendments explain how an entity can identify material accounting policy information. The application of amendments does not have a significant impact on the Company’s interim financial statements.

Amendments to Korean IFRS 1008, *Accounting Policies, Changes in Accounting Estimates and Errors*

The amendments clarify the definition of a change in accounting estimates, and specify how to distinguish it from a change in accounting policies. The application of amendments does not have a significant impact on the Company’s interim separate financial statements.

Amendments to Korean IFRS 1012, *Income Taxes*

The amendments add to the initial recognition exemption that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition. The application of amendments does not have a significant impact on the Company’s interim separate financial statements.

(B) New and amended standards not yet adopted by the Company

The amended accounting standard issued that is not yet effective for the annual reporting period commencing January 1, 2023 and has not been early adopted by the Company is as follows:

Amendments to Korean IFRS 1001, *Presentation of Financial Statements*

The amendments to Korean IFRS 1001 clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period, and that the classification is unaffected by management's intentions or expectations about whether an entity will exercise its right to defer settlement of a liability. The amendments also introduce a definition of settlement to make clear that settlement includes the transfer to the counterparty of the entity's own equity instruments, however, it would be excluded if an option to settle the liability by the transfer of the entity's own equity instruments is recognized separately from the liability as an equity component of a compound financial instrument. The amendments are applied retrospectively for annual periods beginning on or after January 1, 2024, with early application permitted.

## 2.2 Accounting Policies

Significant accounting policies and method of computation used in the preparation of the interim financial statements are consistent with those of the annual financial statements for the year ended December 31, 2022, except for the changes due to the application of amendments of standards described in Note 2.1 and as described below.

(A) Income tax expense

Income tax expense for the interim period is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year. The estimated average annual effective income tax rate is applied to the pre-tax income of the interim period.

## 2.3 Convenience Translation into United States Dollar Amounts

The US dollar amounts provided in the financial statements represent supplementary information solely for the convenience of the reader. All Korean won amounts are expressed in US dollars at the rate of ₩ 1,274.4 to \$1, the average exchange rate for the three-month period ended March 31, 2023. Such presentation is not in accordance with generally accepted accounting principles, and should not be construed as a representation that the Korean won amounts shown could be readily converted, realized or settled in US dollars at this or at any other rate.

## **2.4 Material Accounting Estimates and Assumptions**

In preparing the interim financial statements, the management of the Company makes judgements, estimates and assumptions on matters which affect the application of policies and reported amounts of assets, liabilities, income and expenses. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates, by definition, seldom equal the related actual results.

Material accounting estimates and assumptions made in the preparation of the interim financial statements are consistent with those applied in the preparation of the annual financial statements for the year ended December 31, 2022, except for the estimates used to determine the income tax expense.

### 3. Financial Instruments by Category

(A) Categorizations of financial assets and liabilities as of March 31, 2023 and December 31, 2022 are as follows:

(1) As of March 31, 2023

| (In millions of Korean won)  | Financial assets<br>measured at fair<br>value through<br>other<br>comprehensive<br>income | Financial assets<br>measured at fair<br>value through<br>profit or loss | Total             |
|--|---|---|-------------------|
| <b>Financial assets</b>  |   |   |                   |
| Cash and cash equivalents  | 8,414,405   | -   | 8,414,405         |
| Short-term financial instruments                                     | 1,134   | -   | 1,134             |

## 6. Investments in Subsidiaries, Associates and Joint Ventures

- (A) Changes in investments in subsidiaries, associates and joint ventures for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | 2023              | 2022              |
|------------------------------------|-------------------|-------------------|
| Balance as of January 1            | 57,397,249        | 56,225,599        |
| Acquisition                        | 65,354            | 45,495            |
| Disposal                           | (107,735)         | (74,448)          |
| <b>Balance as of March 31</b>      | <b>57,354,868</b> | <b>56,196,646</b> |

- (B) Major investments in associates as of March 31, 2023 are as follows (refer to Note 27 for the list of subsidiaries):

| Investee                             | Nature of relationship  | Percentage of ownership (%) <sup>(*)1)</sup> | Principal business location | Fiscal period-end |
|--------------------------------------|---|--|-----------------------------|-------------------|
| SAMSUNG ELECTRO-MECHANICS CO.,LTD    | Manufacture and supply electronic components including passive components, circuit boards, and modules        | 23.7   | Korea                       | December          |
| SAMSUNG SDS CO., LTD.                | Provide IT services including computer programming, system integration and management and logistical services | 22.6   | Korea                       | December          |
| SAMSUNG BIOLOGICS CO.,LTD.           | Contract manufacturing of biopharmaceuticals, etc   | 31.2   | Korea                       | December          |
| SAMSUNG SDI CO.,LTD <sup>(*)2)</sup> | Manufacture and supply electronics including secondary cell batteries   | 19.6   | Korea                       | December          |
| Cheil Worldwide, Inc                 | Advertising agency  | 25.2   | Korea                       | December          |

<sup>(\*)1)</sup> Ownership represents the Company's ownership of the total ordinary shares issued by each entity.

<sup>(\*)2)</sup> The Company's ownership of ordinary shares outstanding is 20.6%.

(C) Fair value of marketable investments in associates as of March 31, 2023 and December 31, 2022 as follows:

| <i>(In millions of Korean won<br/>and number of shares)</i> | March 31, 2023           |              | December 31, 2022  |              |                    |
|---|--------------------------|--------------|--------------------|--------------|--------------------|
|   | Number of<br>shares held | Market value | Carrying<br>amount | Market value | Carrying<br>amount |
| Samsung Electro-Mechanics                                   | 17,693,084               | 2,701,734    | 445,244            | 2,308,947    | 445,244            |
| Samsung SDS   | 17,472,110               | 2,026,765    | 560,827            | 2,149,070    | 560,827            |
| Samsung Biologics   | 22,217,309               | 17,507,239   | 1,595,892          | 18,240,411   | 1,595,892          |
| Samsung SDI   | 13,462,673               | 9,895,065    | 1,242,605          | 7,956,440    | 1,242,605          |
| Cheil Worldwide   | 29,038,075               | 540,689      | 491,599            | 669,328      | 491,599            |

## 7. Property, Plant and Equipment

(A) Changes in property, plant and equipment for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>   | <b>2023</b>        | <b>2022</b>        |
|--------------------------------------|--------------------|--------------------|
| Balance as of January 1              | 123,266,986        | 103,667,025        |
| Acquisition and capital expenditures | 9,399,398          | 6,311,543          |
| Depreciation                         | (6,278,126)        | (5,927,470)        |
| Disposals/scrap/impairment           | (31,758)           | (27,029)           |
| Other                                | (923)              | 8,493              |
| <b>Balance as of March 31</b>        | <b>126,355,577</b> | <b>104,032,562</b> |

(B) Details of depreciation of property, plant and equipment for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>            | <b>2023</b>      | <b>2022</b>      |
|---|------------------|------------------|
| Cost of sales                                 | 5,803,397        | 5,488,037        |
| Selling and administrative expenses and other | 474,729          | 439,433          |
| <b>Total</b>                                  | <b>6,278,126</b> | <b>5,927,470</b> |

(C) Right-of-use assets as of March 31, 2023 amount to ₩ 1,381,006 million (December 31, 2022: ₩ 1,236,013 million). During the three-month periods ended March 31, 2023 and 2022, newly recognized right-of-use assets amount to ₩ 204,006 million and ₩ 22,317 million, respectively, with relevant depreciation of ₩ 50,880 million and ₩ 39,202 million, respectively.

## 8. Intangible Assets

(A) Changes in intangible assets for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>2023</b>       | <b>2022</b>      |
|------------------------------------|-------------------|------------------|
| Balance as of January 1            | 8,561,424         | 8,657,456        |
| External acquisitions              | 3,410,160         | 303,200          |
| Amortization                       | (657,121)         | (628,517)        |
| Disposals/scrap/impairment         | (15,006)          | (3,150)          |
| Other                              | 19,122            | 4,507            |
| <b>Balance as of March 31</b>      | <b>11,318,579</b> | <b>8,333,496</b> |

(B) Details of amortization of intangible assets for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>            | <b>2023</b>    | <b>2022</b>    |
|---|----------------|----------------|
| Cost of sales                                 | 506,898        | 480,529        |
| Selling and administrative expenses and other | 150,223        | 147,988        |
| <b>Total</b>                                  | <b>657,121</b> | <b>628,517</b> |

## 9. Borrowings

Details of the carrying amounts of borrowings as of March 31, 2023 and December 31, 2022 are as follows:

| (In millions of Korean won)                    | Financial institutions    | Due date     | Interest rates (%) |                |                   |
|--|---------------------------|--------------|--------------------|----------------|-------------------|
|  |                           |              | as of Mar 31, 2023 | March 31, 2023 | December 31, 2022 |
| <b>Short-term borrowings</b>                   |                           |              |                    |                |                   |
| Collateralized borrowings <sup>(*)1</sup>      | Woori Bank and other      |              | 0.2~18.5           | 3,181,693      | 2,381,512         |
| <b>Total</b>                                   |                           |              |                    | 3,181,693      | 2,381,512         |
| <b>Current portion of long-term borrowings</b> |                           |              |                    |                |                   |
| Lease liabilities <sup>(*)2</sup>              | -                         |              | 2.4                | 168,342        | 129,525           |
| <b>Total</b>                                   |                           |              |                    | 168,342        | 129,525           |
| <b>Long-term borrowings</b>                    |                           |              |                    |                |                   |
| Lease liabilities <sup>(*)3</sup>              | -                         |              | 2.4                | 771,941        | 654,979           |
| Non-collateralized borrowings <sup>3</sup>     | Samsung Display Co., Ltd. | Aug 16, 2025 | 4.6                | 10,000,000     | -                 |
| <b>Total</b>                                   |                           |              |                    | 10,771,941     | 654,979           |

(\*)1 Collateralized borrowings are secured by trade receivables.

(\*)2 Interest expenses arising from the lease liabilities for the three-month periods ended March 31, 2023 and 2022 amounted to ₩ 5,227 million and ₩ 2,310 million, respectively, which were determined using the weighted average incremental borrowing rate.

(\*)3 An agreement has been signed with the total amount of the loan being ₩ 20 trillion, which will be paid in instalments according to the circumstances of both companies, but the loan will be repaid in one lump sum at the end of the term.

## 10. Debentures

Details of the carrying amounts of debentures as of March 31, 2023 and December 31, 2022 are as follows:

| (In millions of Korean won)                         | Issue date  | Due date    | Interest rate (%)  |                            |                            |
|---|-------------|-------------|--------------------|----------------------------|----------------------------|
|   |             |             | as of Mar 31, 2023 | March 31, 2023             | December 31, 2022          |
| US dollar denominated straight bonds <sup>(*)</sup> | Oct 2, 1997 | Oct 1, 2027 | 7.7                | 32,595<br>(USD 25 million) | 31,683<br>(USD 25 million) |
| Less: Discounts                                     |             |             |                    | (512)                      | (543)                      |
| Less: Current Portion                               |             |             |                    | (6,416)                    | (6,228)                    |
| <b>Total</b>  |             |             |                    | 25,667                     | 24,912                     |

(\*) US dollar denominated straight bonds are repaid annually for twenty years after a ten-year grace period from the date of issuance.

Interest is paid semi-annually.

## 11. Net Defined Benefit Liabilities (Assets)

- (A) Details of net defined benefit liabilities (assets) recognized in the statements of financial position as of March 31, 2023 and December 31, 2022 are as follows:

| <i>(In millions of Korean won)</i>                    | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|---|-----------------------|--------------------------|
| Present value of funded defined benefit obligations   | 11,025,601            | 10,729,126               |
| Present value of unfunded defined benefit obligations | 30,363                | 29,546                   |
| <b>Subtotal</b>                                       | <b>11,055,964</b>     | <b>10,758,672</b>        |
| Fair value of plan assets                             | (14,978,208)          | (15,168,895)             |
| <b>Total</b>  | <b>(3,922,244)</b>    | <b>(4,410,223)</b>       |

- (B) The components of defined benefit costs recognized in profit or loss for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>2023</b>    | <b>2022</b>    |
|------------------------------------|----------------|----------------|
| Current service cost               | 240,592        | 257,508        |
| Net interest income                | (68,812)       | (22,976)       |
| <b>Total</b>                       | <b>171,780</b> | <b>234,532</b> |

- (C) The expenses related to defined benefit plans recognized in the statements of profit or loss for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>            | <b>2023</b>    | <b>2022</b>    |
|---|----------------|----------------|
| Cost of sales                                 | 69,079         | 93,630         |
| Selling and administrative expenses and other | 102,701        | 140,902        |

## 12. Provisions

Changes in the provisions for the three-month period ended March 31, 2023 are as follows:

| (In millions of Korean won)   | Warranty (A)   | Royalty expenses (B) | Long-term incentives (C) | Other (D, E)     | Total            |
|-------------------------------|----------------|----------------------|--------------------------|------------------|------------------|
| Balance as of January 1       | 587,665        | 1,546,606            | 549,181                  | 2,799,204        | 5,482,656        |
| Charged to profit or loss     | 258,085        | 174,089              | 48,143                   | 1,224,439        | 1,704,756        |
| Payment                       | (179,537)      | (112,439)            | -                        | (163,556)        | (455,532)        |
| Other                         | -              | (15,242)             | -                        | 69,803           | 54,561           |
| <b>Balance as of March 31</b> | <b>666,213</b> | <b>1,593,014</b>     | <b>597,324</b>           | <b>3,929,890</b> | <b>6,786,441</b> |

- (A) The Company accrues warranty reserves for estimated costs of quality assurance, exchanges, repairs, recalls, and future services based on historical experience and terms of warranty programs.
- (B) The Company recognizes provisions for the estimated royalty expenses that are under negotiation with counterparties. The timing and amount of payment depend on the settlement of the negotiations.
- (C) The Company has a long-term incentive plan for its executives based on a three-year management performance criteria and recognizes a provision for the estimated incentive cost.
- (D) The Company records provisions for future expenses expected to be incurred for products that have been discontinued from manufacturing and sales.
- (E) The Company makes provisions for and the emission in excess of the emission rights held by the Company for the applicable years. Details of emission rights and liabilities as of March 31, 2023 are as follows:

- (1) The amount of emission rights allocated free of charge in the current commitment period and estimated volume of emission as of March 31, 2023 are as follows:

| (In ten thousand metric tons)            | March 31, 2023 |
|--|----------------|
| Emission rights allocated free of charge | 1,123          |
| Estimated volume of emission             | 1,467          |

- (2) Changes in the emission rights for the three-month periods ended March 31, 2023 and 2022 are as follows:

| (In millions of Korean won)   | 2023          | 2022          |
|-------------------------------|---------------|---------------|
| Balance as of January 1       | 19,567        | 46,073        |
| Acquisition                   | -             | -             |
| <b>Balance as of March 31</b> | <b>19,567</b> | <b>46,073</b> |

- (3) Changes in the emission liabilities for the three-months period ended March 31, 2023 and 2022 are as follows:

| (In millions of Korean won)   | 2023          | 2022          |
|-------------------------------|---------------|---------------|
| Balance as of January 1       | 32,825        | 45,049        |
| Charged to profit or loss     | -             | 12,454        |
| <b>Balance as of March 31</b> | <b>32,825</b> | <b>57,503</b> |

### 13. Commitments and Contingencies

#### (A) Guarantees

- (1) Debt guarantees provided by the Company for overseas subsidiaries as of March 31, 2023 are as follows:

*(In millions of Korean won and thousands of US dollars)*

| Debtor   | Creditor      | Date of maturity  | Borrowed amounts | Guaranteed amount |
|--|---------------|-------------------|------------------|-------------------|
| Samsung Electronics Turkiye<br>(SETK)                      | BNP and other | December 16, 2023 | 382,727          | 1,013,053         |
| Samsung Electronics Industry and<br>Commerce Ltd. (SETK-P) | BNP and other | December 16, 2023 | 32,630           | 169,494           |
| Samsung Electronics Israel Ltd.<br>(SEIL)                  | Citibank      | December 16, 2023 | 12,327           | 20,339            |
| Other  | Other         |                   | -                | 9,418,927         |
| <b>Total</b>   |               |                   | 427,684          | 10,621,813        |
|  |               |                   | USD 328,012      | USD 8,146,811     |

- (2) The ceiling amount of guarantees provided by the Company for the execution of contracts by overseas subsidiaries is ₩ 482,446 million as of March 31, 2023.
- (3) The Company has not been provided any collateral or guarantees from its related parties as of March 31, 2023.

#### (B) Litigation

As of March 31, 2023, the Company is involved in various claims, disputes, and investigations conducted by regulatory bodies that arose during the normal course of business with numerous entities. Although the outflow of resources and timing of these matters are uncertain, the Company believes the outcome will not have a material impact on the financial position of the Company.

#### (C) Joint liabilities related to the divestiture

The Company, Samsung Display Co., Ltd. and others are jointly and severally liable to fulfill the debts of Samsung Display Co., Ltd. and others which relate to the periods prior to Samsung Display Co., Ltd.'s separation from the Company.

## **14. Contract Liabilities**

The Company has recognized contract liabilities related to contracts with customers as follows:

| <i>(In millions of Korean won)</i>  | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|-------------------------------------|-----------------------|--------------------------|
| Contract liabilities <sup>(*)</sup> | 1,079,654             | 1,133,426                |

<sup>(\*)</sup> Contract liabilities include advances received, accrued expenses, other current liabilities and others.

## **15. Share Capital**

As of March 31, 2023, the Company's total number of authorized shares is 25,000,000,000 shares (₩ 100 per share). The Company has issued 5,969,782,550 shares of ordinary shares and 822,886,700 shares of preference shares as of March 31, 2023, excluding retired shares. As of March 31, 2023, the number of shares outstanding is the same as the number of shares issued above, and no changes were made to the number of shares outstanding during the three-month periods ended March 31, 2023 and 2022. Due to the retirement of shares, the total par value of the shares issued is ₩ 679,267 million (ordinary shares of ₩ 596,978 million and preference shares of ₩ 82,289 million), which does not agree with paid-in capital of ₩ 897,514 million.

## 16. Retained Earnings

(A) Retained earnings as of March 31, 2023 and December 31, 2022 consist of the following:

| <i>(In millions of Korean won)</i> | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|------------------------------------|-----------------------|--------------------------|
| Legal reserves                     | 450,789               | 450,789                  |
| Discretionary reserves, etc.       | 205,642,345           | 203,937,227              |
| <b>Total</b>                       | <b>206,093,134</b>    | <b>204,388,016</b>       |

(B) Details of interim dividends are as follows (Record date: March 31, 2023 and 2022)

| <i>(In millions of Korean won and number of shares)</i> |                     | <b>2023</b>      | <b>2022</b>      |
|---|---------------------|------------------|------------------|
| Number of shares eligible for dividends                 | Ordinary shares     | 5,969,782,550    | 5,969,782,550    |
|   | Preference shares   | 822,886,700      | 822,886,700      |
| Dividend rate (based on par value)                      | Ordinary/Preference | 361%             | 361%             |
| 1 <sup>st</sup> Quarter                                 | Ordinary shares     | 2,155,092        | 2,155,092        |
|   | Preference shares   | 297,062          | 297,062          |
|   | <b>Total</b>        | <b>2,452,154</b> | <b>2,452,154</b> |

## 17. Other Components of Equity

Other components of equity as of March 31, 2023 and December 31, 2022 consist of the following:

| <i>(In millions of Korean won)</i>   | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|--|-----------------------|--------------------------|
| Loss on valuation of financial assets at fair value through other comprehensive income | (35,325)              | (122,644)                |
| Remeasurement of net defined benefit liabilities (assets)                              | (2,151,120)           | (1,910,996)              |
| Others   | 1,760,408             | 1,760,408                |
| <b>Total</b>   | <b>(426,037)</b>      | <b>(273,232)</b>         |

## 18. Expenses by Nature

Expenses by nature for the three-month periods ended March 31, 2023 and 2022 consist of the following:

| <i>(In millions of Korean won)</i>                    | <b>2023</b>       | <b>2022</b>       |
|---|-------------------|-------------------|
| Changes in finished goods, work in process, and other | (2,536,693)       | (2,089,589)       |
| Raw materials used, merchandise purchased, and other  | 25,714,241        | 27,637,597        |
| Wages and salaries                                    | 4,082,252         | 4,240,048         |
| Post-employment benefit                               | 173,669           | 236,336           |
| Depreciation  | 6,278,126         | 5,927,470         |
| Amortization  | 657,121           | 628,517           |
| Welfare   | 764,552           | 680,291           |
| Utilities   | 1,228,172         | 832,675           |
| Outsourcing   | 931,459           | 803,742           |
| Advertising   | 273,022           | 353,048           |
| Sales promotion expenses                              | 292,124           | 405,396           |
| Other   | 8,219,395         | 7,916,896         |
| <b>Total<sup>(*)</sup></b>                            | <b>46,077,440</b> | <b>47,572,427</b> |

<sup>(\*)</sup> Equal to the sum of cost of sales and selling and administrative expenses in the statements of profit or loss.

## **19. Selling and Administrative Expenses**

Selling and administrative expenses for the three-month periods ended March 31, 2023 and 2022 are as follows:

| <i>(In millions of Korean won)</i>         | <b>2023</b>      | <b>2022</b>      |
|--|------------------|------------------|
| <b>Selling and administrative expenses</b> |                  |                  |
| Wages and salaries                         | 736,282          | 728,659          |
| Post-employment benefit                    | 30,975           | 41,455           |
| Commissions                                | 901,887          | 660,812          |

| (In millions of Korean won)   | 2023             | 2022             |
|---|------------------|------------------|
| <b>Financial expenses</b>   |                  |                  |
| Interest expenses   | 161,503          | 53,921           |
| Interest expenses from financial liabilities measured at amortized cost | 78,712           | 11,817           |
| Other financial liabilities   | 82,791           | 42,104           |
| Foreign exchange differences  | 2,158,645        | 1,388,447        |
| <b>Total</b>  | <b>2,320,148</b> | <b>1,442,368</b> |

The Company recognizes foreign exchange gains and losses arising from foreign currency transactions and translation as financial income and expenses.

## 22. Income Tax Expense

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year. The average annual tax rate expected as of March 31, 2023 to be effective for the year ended December 31, 2023 is 5.5%.

## 23. Earnings per Share

### (A) Basic earnings per share

Basic earnings per share for the three-month periods ended March 31, 2023 and 2022 are calculated as follows:

#### (1) Ordinary shares

| <i>(In millions of Korean won, thousands of number of shares)</i> | <b>2023</b> | <b>2022</b>  |
|---|-------------|--------------|
| Profit for the period   | 4,158,095   | 7,651,943    |
| Profit for the period available for ordinary shares               | 3,654,369   | 6,724,961    |
| Weighted-average number of ordinary shares outstanding            | 5,969,783   | 5,969,783    |
| <b>Basic earnings per ordinary share (in Korean won)</b>          | <b>612</b>  | <b>1,127</b> |

#### (2) Preference shares

| <i>(In millions of Korean won, thousands of number of shares)</i> | <b>2023</b> | <b>2022</b>  |
|---|-------------|--------------|
| Profit for the period   | 4,158,095   | 7,651,943    |
| Profit for the period available for preference shares             | 503,726     | 926,982      |
| Weighted-average number of preference shares outstanding          | 822,887     | 822,887      |
| <b>Basic earnings per preference share (in Korean won)</b>        | <b>612</b>  | <b>1,127</b> |

### (B) Diluted earnings per share

The Company does not have dilutive potential ordinary shares and as a result, basic earnings per share and diluted earnings per share are the same for the three-month periods ended March 31, 2023 and 2022.

## 24. Statements of Cash Flows

(A) The Company used the indirect method to present cash flows from operating activities. Adjustments and changes in assets and liabilities arising from operating activities for the three-month periods ended March 31, 2023 and 2022 are as follows:

- Adjustments

| <i>(In millions of Korean won)</i>                | <b>2023</b>      | <b>2022</b>      |
|---|------------------|------------------|
| Adjustments :                                     |                  |                  |
| Income tax expense                                | 244,098          | 2,026,077        |
| Financial income                                  | (666,230)        | (787,805)        |
| Financial expenses                                | 1,131,568        | 566,791          |
| Post-employment benefits                          | 173,669          | 236,336          |
| Depreciation                                      | 6,278,126        | 5,927,470        |
| Amortization                                      | 657,121          | 628,517          |
| Bad debt expenses                                 | 10,512           | 4,586            |
| Dividend income                                   | (8,439,845)      | (127,508)        |
| Gain on disposal of property, plant and equipment | (31,902)         | (48,098)         |
| Loss on disposal of property, plant and equipment | 3,166            | 934              |
| Loss on valuation of inventories                  | 2,051,227        | 275,743          |
| Others  | 8,658            | 2,595            |
| <b>Total</b>                                      | <b>1,420,168</b> | <b>8,705,638</b> |

- Changes in assets and liabilities arising from operating activities

| <i>(In millions of Korean won)</i>       | <b>2023</b>        | <b>2022</b>        |
|--|--------------------|--------------------|
| Changes in assets and liabilities :      |                    |                    |
| Increase in trade receivables            | (2,255,442)        | (1,568,826)        |
| Decrease in non-trade receivables        | 866,298            | 410,934            |
| Increase in prepaid expenses             | (286,879)          | (313,005)          |
| Increase in inventories                  | (4,492,698)        | (2,968,903)        |
| Increase in trade payables               | 3,306,093          | 1,903,747          |
| Decrease in other payables               | (2,759,686)        | (1,499,235)        |
| Increase (decrease) in advances received | 13,282             | (99,472)           |
| Decrease in withholdings                 | (138,933)          | (224,466)          |
| Decrease in accrued expenses             | (2,751,744)        | (2,286,705)        |
| Increase in provisions                   | 1,249,224          | 476,276            |
| Payment of post-employment benefits      | (99,540)           | (90,289)           |
| Other                                    | 176,498            | (301,497)          |
| <b>Total</b>                             | <b>(7,173,527)</b> | <b>(6,561,441)</b> |

(B) For the three-month periods ended March 31, 2023 and 2022, cash outflows from principal portion of lease liabilities (financial activities) were ₩ 39,266 million and ₩ 34,731 million, respectively, and cash outflows due to interest expenses (operating activities) in relation to the lease liabilities amount to ₩ 5,227 million and ₩ 2,310 million, respectively.

## **25. Financial Risk Management**

The Company's financial risk management focuses on minimizing market risk, credit risk, and liquidity risk arising from operating activities. To mitigate these risks, the Company implements and operates a financial risk policy and program that closely monitors and manages such risks. In addition, the Company uses derivatives to hedge certain risk exposure.

The finance team mainly carries out the Company's financial risk management. After implementing the global financial risk management policies, the finance team periodically measures, evaluates, and hedges financial risks and also establishes and implements the global financial risk management policy.

The Company also manages foreign exchange risk by monitoring foreign exchange rate fluctuations through local finance centers in the major regions (United States, United Kingdom, Singapore, China, Brazil, and Russia), which act as an agent for the subsidiaries in each region to manage foreign exchange transactions. In addition, local finance centers in the major regions manage liquidity risk through a globally integrated finance structure.

The Company's financial assets that are under financial risk management are comprised of cash and cash equivalents, short-term financial instruments, trade receivables and others. The Company's financial liabilities under financial risk management are comprised of trade payables, borrowings, and others.

### (A) Market risk

#### (1) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from its global operations performed in currencies other than its functional currency. The major currencies the Company is exposed to foreign exchange risk are the US dollar, Euro, and Indian Rupee.

The Company focuses on minimizing the impact of foreign exchange fluctuation by maintaining matching levels of assets and liabilities denominated in each foreign currency. To minimize exchange position, the Company's foreign exchange management policy requires normal business transactions, including import and export, as well as financing transactions such as depositing and borrowing, to be in local currency or for match as closely as possible cash inflows and outflows incurred in the respective foreign currencies. Moreover, the Company periodically evaluates and monitors the foreign exchange risk to efficiently mitigate such risk, and the speculative foreign exchange transactions are strictly prohibited.

#### (2) Interest rate risk

Risk of changes in interest rates for floating interest rate financial instruments is defined as the risk that the fair value of components of the statements of financial position, and future cash flows of interest income (expenses) of a financial instrument, will fluctuate because of changes in market interest rates. The Company's position with regard to interest rate risk exposure is mainly driven by its floating interest rate debt obligations and interest-bearing deposits. The Company has implemented policies and practices to minimize uncertainty arising from changes in interest rates and financial expenses.

(3) Price risk

The Company's investment portfolio consists of direct and indirect investments in equity instruments classified as financial assets at fair value through other comprehensive income, which is in line with the Company's strategy.

As of March 31, 2023 and 2022, price fluctuation of marketable equity securities (listed stocks) by 1% would result in changes in other comprehensive income (before income tax) of ₩ 13,678 million and ₩ 14,639 million, respectively.

(B) Credit risk

Credit risk arises during the normal course of transactions and investing activities where clients or other parties fail to discharge an obligation. The Company monitors and sets the client's and counterparty's credit limit on a periodic basis based on the client's and counterparty's financial conditions, default history and other factors. Adequate insurance coverage is maintained for trade receivables related to trading partners situated in higher risk countries.

Credit risk can arise from transactions with financial institutions which include financial instrument transactions such as cash and cash equivalents, deposits, and derivative instruments. To minimize such risk, the Company transacts only with banks which have a strong international credit rating (S&P A and above), and all new transactions with financial institutions with no prior transaction history are approved, managed and monitored by the Company's finance team and the local finance centers. The Company generally enters into a financial agreement with no restrictions, such as debt ratio covenants, provision of collateral and/or repayment of loans/borrowings. The Company requires separate approvals for contracts with restrictions.

As of the reporting date, the Company estimates that its maximum exposure to credit risk is the carrying amount of its financial assets, net of impairment losses.

(C) Liquidity risk

Due to large investments made by the Company, maintaining adequate levels of liquidity is critical. The Company strives to achieve this goal by periodically forecasting its cash balance, estimating required cash levels, and managing cash inflows and outflows.

The Company manages its liquidity risk by periodically forecasting projected cash flows. The Company maintains a liquidity management process which provides additional financial support from the local finance center and the Company. The Cash Pooling program allows the sharing of surplus funds among entities and contributes to minimizing liquidity risk and strengthening the Company's competitive position by reducing financing burden and financial expenses.

The Company secures credit lines for its overseas subsidiaries by means of payment guarantees for the overseas subsidiaries' large liquidity needs, the Company secures credit limit for the overseas subsidiaries through its payment guarantees.

#### (D) Capital risk management

The purpose of capital management is to maintain a sound capital structure. The Company monitors capital on the basis of credit ratings and debt ratio. Debt ratio is calculated by dividing total liabilities by total equity in the financial statements.

The Company has maintained an AA- credit rating from S&P and Aa2 from Moody's as of March 31, 2023.

The total liabilities to equity ratios as of March 31, 2023 and December 31, 2022 are as follows:

| <i>(In millions of Korean won)</i> | <b>March 31, 2023</b> | <b>December 31, 2022</b> |
|------------------------------------|-----------------------|--------------------------|
| Total liabilities                  | 63,441,883            | 50,667,559               |
| Total equity                       | 210,968,504           | 209,416,191              |
| <b>Debt ratio</b>                  | <b>30.1%</b>          | <b>24.2%</b>             |

#### (E) Fair value measurement

(1) Carrying amounts and fair values of financial instruments by category as of March 31, 2023 and December 31, 2022 are as follows:

| <i>(In millions of Korean won)</i>                                | <b>March 31, 2023</b>  |                     | <b>December 31, 2022</b> |                   |
|---|------------------------|---------------------|--------------------------|-------------------|
|   | <b>Carrying amount</b> | <b>Fair value</b>   | <b>Carrying amount</b>   | <b>Fair value</b> |

| Financial assets at fair value through profit or loss             | -                 | -       | 283     | 283           |
| <b>2) Liabilities</b>   |                   |         |         |               |
| Current portion of debentures                                     | -                 | 6,580   | -       | 6,580         |
| Debentures  | -                 | 27,845  | -       | 27,845        |

The levels of the fair value hierarchy and its application to financial assets and liabilities are described below.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in Level 1. The instruments included in Level 1 are listed equity investments, most of which are classified as financial assets at fair value through other comprehensive income.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where available and rely as little as possible on entity-specific estimates. If all significant inputs required to measure the fair value of an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs are not based on observable market data, the instrument is included in Level 3.

The Company performs the fair value measurements required for financial reporting purposes, including Level 3 fair values and discusses valuation processes and results in line with the financial reporting timelines. The Company's policy is to recognize transfers between levels at the end of the reporting period, if corresponding events or changes in circumstances have occurred.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments
- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the reporting date, with the resulting value discounted to present value

Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments. For trade and other receivables that are classified as current assets, the book value approximates a reasonable estimate of fair value.

#### (3) Valuation technique and the inputs

The Company utilizes a present value technique to discount future cash flows using respective proper interest rates for corporate bonds, government and public bonds, and bank debentures that are classified as Level 2 in the fair value hierarchy.

The following table presents the valuation technique and the inputs used for major financial instruments classified as Level 3 as of March 31, 2023.

*(In millions of Korean won, and percentage)*

| Classification   | Fair value | Valuation technique              | Level 3 inputs                   | Input range |

(5) Sensitivity analysis for recurring fair value measurements categorized within Level 3

Sensitivity analysis of financial instruments is performed to measure favorable and unfavorable changes in the fair value of financial instruments which are affected by the unobservable parameters, using a statistical technique. When the fair value is affected by more than two input parameters, the amounts represent the most favorable or unfavorable.

The results of the sensitivity analysis for effect on other comprehensive income or loss before tax from changes in inputs for major financial instruments which are categorized within Level 3 and subject to sensitivity analysis are as follows:

| <i>(In millions of Korean won)</i>   | Favorable changes |                | Unfavorable changes |                |         |
|--|-------------------|----------------|---------------------|----------------|---------|
|  | Classification    | Profit or loss | Equity              | Profit or loss | Equity  |
| Financial assets at fair value through<br>other comprehensive income <sup>(*)1</sup> |                   | -              | 2,912               | -              | (2,788) |
| Other <sup>(*)2</sup>  |                   | 76,167         | -                   | (66,387)       | -       |

<sup>(\*)1</sup> For equity securities, changes in fair value are calculated with the correlation between the growth rate (-1% ~1%) and the discount rate, which are significant unobservable inputs.

<sup>(\*)2</sup> Changes in fair value were calculated based on the correlation between underlying asset price (20%) and price volatility (10%), which are significant unobservable inputs.

## 26. Segment Information

The chief operating decision-maker has been identified as the Management Committee. The Company determines operating segments based on the units reported to the Management Committee. The Management Committee reviews the operating profits of each operating segment in order to assess performance and to make strategic decisions regarding the allocation of resources to each segment.

Sales revenue consists mostly of product sales. The operating segments are product-based and are identified based on the internal organization and revenue streams. As of the reporting date, the operating segments are comprised of DX, DS, and others.

Total assets and liabilities of each operating segment are excluded from the disclosure as these have not been provided regularly to the Management Committee.

<sup>(\*2)</sup> The Company has not recognized any bad debt allowance in relation to the receivables due from subsidiaries as of December 31, 2022.

<sup>(\*3)</sup> Payables and others include lease liabilities.

<sup>(\*4)</sup> Transactions with the intermediate parent company, including Harman International Industries, Inc. and its subsidiaries.

<sup>(\*5)</sup> Although these entities are not related parties of the Company in accordance with Korean IFRS 1024, they belong to the same large enterprise group in accordance with the Monopoly Regulation and Fair Trade Act.

- (D) For the three-month period ended March 31, 2023 and 2022, the Company had no lendings to its subsidiaries, but had borrowing from its subsidiaries amounting to ₩ 10,000,000 million ₩ 0 million, respectively. In addition, the Company had no lendings to or borrowings from associates and joint ventures during the three-month periods ended March 31, 2023 and 2022.
- (E) For the three-month periods ended March 31, 2023 and 2022, the Company invested ₩ 6,372 million and ₩ 45,495 million, respectively, in its subsidiaries, and received ₩ 107,217 million and ₩ 74,448 million in return of investments, respectively. In addition, the Company invested ₩ 58,982 million in associates and joint ventures for the three-month period ended March 31, 2023, and received ₩ 518 million in return of investments.
- (F) For the three-month periods ended March 31, 2023 and 2022, the Company declared dividend of ₩ 412,942 million and ₩ 421,609 million, respectively, to related parties. As of March 31, 2023, the dividend payable to related parties amounted to ₩ 412,942 million. In addition, for the three-month periods ended March 31, 2023 and 2022, the Company declared dividends of ₩ 32,058 million and ₩ 32,058 million, respectively, to the entities that are not related parties of the Company in accordance with Korean IFRS 1024, but belong to the same conglomerate according to the Monopoly Regulation and Fair Trade Act. As of March 31, 2023, dividend payables to the entities that are not in scope of Korean IFRS 1024 amounted to ₩ 32,058 million.
- (G) For the three-month period ended March 31, 2023, the Company entered into new lease agreements with its related parties amounted to ₩ 20 million (none for the three-month period ended March 31, 2022),, and lease payments made to the related parties amounted to ₩ 6,313 million and ₩ 11,817 million, respectively.
- (H) As of March 31, 2023, the Company provides guarantees in relation to borrowings of the related parties (refer to Note 13)
- (I) Key management compensation

The compensation paid or payable to key management (executive directors) for their services for the three-month periods ended March 31, 2023 and 2022 consists of:

| <i>(In millions of Korean won)</i> | <b>2023</b> | <b>2022</b> |
|------------------------------------|-------------|-------------|
| Short-term employee benefits       | 3,330       | 3,415       |
| Post-employment benefits           | 139         | 127         |
| Other long-term employee benefits  | 1,959       | 2,072       |

## 6. Dividends

We continue to work to enhance shareholder value alongside our efforts to strengthen competitiveness of our products and businesses. We utilized 50% of the free cash flow as the shareholder return pool for 2018 to 2020 as part of our shareholder return policy for 2018 to 2020 and paid annual, regular dividends of KRW 9.6 trillion. A special cash dividend of KRW 10.7 trillion was paid out at the same time as the 2020 end-year, regular dividend. The shareholder return policy for 2021 to 2023 was announced in January 2021. For this term, we kept the shareholder return pool at 50% of the free cash flow, but increased the annual, regular dividend to KRW 9.8 trillion. Any remaining portion of the 50% of the free cash flow will be paid out to shareholders.

Dividends paid in the three most recent fiscal years are as follows:

[Key dividend indices]

| Classification                                  |           | 1Q23      | 2022       | 2021       |
|---|-----------|-----------|------------|------------|

| Stock dividend yield (%)                        | Common    | -         | -          | -          |
|   | Preferred | -         | -          | -          |
| Cash dividend per share (KRW)                   | Common    | 361       | 1,444      | 1,444      |
|   | Preferred | 361       | 1,445      | 1,445      |
| Stock dividend per share (share)                | Common    | -         | -          | -          |
|   | Preferred | -         | -          | -          |

Dividends were KRW 2,452,154 million or KRW 361 per share in the first quarter of 2023 and the first three quarters of 2022 and 2021. For further information relating to total cash dividend, see retained earnings in 『3. Note to Consolidated Financial Statements』 in 『III. Financial Affairs』 .

1) Equity attributable to owners of the parent.

2) Basic earnings per common share on a consolidated basis. For further information relating to the calculation of basic EPS, see Earnings Per Share in 『3. Note to Consolidated Financial Statements』 in 『III. Financial Affairs』 .

The history of dividend payouts is as follows:

| Number of continuous dividend payments |                    | Average dividend yield |              |
|--|--------------------|------------------------|--------------|
| Quarterly/biannual dividends           | End-year dividends | Past 3 years           | Past 5 years |
| 37                                     | 42                 | 2.7%                   | 2.9%         |

The number of continuous dividend payments includes the quarterly dividend for the quarter and the end-year dividend for the recent business year. Continuous payment of the end-year dividend started in 1981, biannual dividend in 1999, and quarterly dividend in 2017.

The average dividend yield is based on common shares. The average dividend yield of preferred shares for the past 3 years and past 5 years are 3.0% and 3.3% respectively.

The “past 3 years” refers to the period from 2020 to 2022, and the “past 5 years” refers to the period from 2018 to 2022. For the dividend yield of 1Q23, please refer to the table of key dividends above (common shares at 0.6%, preferred shares at 0.7%).

| Submission of implementation report | Implementation status | Not applicable  |

- ※ The exchange rate as of the base date has been applied.
- ※ The date of the bond management contract was signed on the same day as the Fiscal Agency Agreement; accordingly, the Bank of New York Mellon Trust Company, N.A. is under the authority of the Fiscal Agent.
- ※ The net tangible assets subjected to the limitation of collaterals are production facilities and stocks owned by the Company.
- ※ The reporting date is the date when most recent financial statements were prepared, which are used to determine the status of implementation.
- ※ The constraint on governance is as of the reporting date.

## **7-2 Use of funds financed through the issuance of securities**

Not applicable

## **8. Other financial information**

### **A. Restatement of financial statements and other matters to note**

- (1) Restatement of financial statements: Not Applicable
- (2) Acquisition, divestment, asset sales, and sale of business

The major acquisition, divestment and transfer of business during past three years are as follows.

#### **[Sale of SSL, SSM]**

On August 28, 2020, Samsung Display Co., Ltd., the Company's subsidiary, decided to sell its 100% ownership in Samsung Suzhou Module Co., Ltd. ("SSM") and 60% ownership in Samsung Suzhou LCD Co., Ltd. ("SSL") to TCL China Star Optoelectronics Technologies Co. Ltd. ("CSOT"). The sales were completed on April 1, 2021.

- (3) Information on the accounting treatment of the sales of assets related to asset backed securities and contingent liabilities

#### **Accounting Treatment of the sale of assets related to asset backed securities:**

- Not applicable

#### **Litigation**

The Company is involved in various claims, disputes, and investigations conducted by regulatory bodies, which arose during the normal course of business with numerous entities. Although the outflow of resources and timing of these matters are uncertain, as of the reporting date, the Company believes the outcome will not have a material impact on the financial position of the Company.

#### **Debt guarantee**

- Domestic: Not applicable

- Overseas:

※ Information above are prepared on a consolidated basis. Debt guarantees for SDN are provided by Samsung Display Co., Ltd, SAS by SEA, and DOWOOINSYS VINA COMPANY LIMITED by Dowooinsys, respectively.

※ SEC requires Board approval for individual guarantees exceeding 2.5% of total equity. When the guarantee amount is between 0.1% and/or less than 2.5%, the approval decision is delegated to the Management Committee. Samsung Display Co., Ltd requires Board approval for individual guarantees over KRW 10,000 million.

※ SEC claims fees on the debt guarantees depending on the maturity date of each debt guarantee, general loan interest rate, etc. In 2022, the Company claimed approximately USD 547,000 in guarantee fees and collected the amount in 2023. In 2022, Samsung Display Co., Ltd. claimed approximately USD 3,080,000 in guarantee fees to SDN and collected the amount in 2023.

Refer to the notes to the consolidated financial statements for the information on contingent liabilities.

| 3. Bad debts expense                             | 65,865  | 25,810  | 34,508  |
| 4. Allowance for bad debts<br>(Ending balance)   | 480,665 | 406,677 | 397,525 |

\* Based on consolidated financial statements.

## The guideline for bad debt allowances for trade receivables

### (1) Calculation of bad debt allowance

- Bad debt allowance is calculated using an expected credit loss impairment model which is based on write-off experience rate and future expected bad debt amount.

### (2) Calculation basis of write-off experience rate and future expected bad debt:

- Write-off experience rate for each aging group of receivables is calculated based on the actual rate of credit losses to three-year average receivables balance.
- Future expected bad debt is determined taking into consideration cases of debtor bankruptcy, compulsory execution, death, disappearance, credit information of debtor and forward-looking information.

### [Bad debt allowance by circumstance]

| Circumstance  | Rate of allowance |
|---|-------------------|
| Dispute or conflict   | 25%               |
| Receivable through utilization of third party collection agency | 50%               |
| Receivable under litigation                                     | 75%               |
| Customer filed or in the process of filing bankruptcy           | 100%              |

(3) Instruction: Write-off is recorded when trade receivables contain the following characteristics:

- Objective proof of bad debts, such as bankruptcy, compulsory execution, discontinuance of business, debtor's death or disappearance
- Legal action has failed or the right of collection has been extinguished.
- When the third party collection agency notifies that collection is not possible.
- When the collateral is sold or insurance is received.
- When collection expense exceeds receivables amount.

### The outstanding period of trade receivables

(Reporting Date: March 31, 2023)

(KRW mil, %)

|        | Less than<br>6 months | 6 months ~<br>1 year | 1 year ~<br>3 years | More than<br>3 years | Total      |

※ Based on consolidated financial statements

## Inventory counts

### (1) Inspection date

- End of May and November (twice a year)
- For the difference in inventories between the inspection date and at the end of the year, the Company checks all the warehouse record during the period in order to confirm the existence of the inventories as of the date of the financial statements.

### (2) Inspection method

- Internal warehouse: Closed & entire quantity inspection
- ※ Sample inspection for semi-conductor and DP work-in-progress inventories, SVC materials
- Outside warehouse
  - Perform check for the possession confirmation documents and sample tests at the third party warehouse and inventory-in-transit.
  - External auditors join and observe the inspection and carry out sample tests to check the existence and completeness.
- ※ For the HQ, the most recent inventory inspection was conducted from Nov 26 to Dec 5, 2022, and the subsidiaries conducted the inventory inspection during the same period as HQ.

## Inventory aging and valuation

Inventories are stated at the lower of cost or net realizable value. Inventory as of March 31, 2023 are as follows:

| Category            | Acquisition cost | Inventory valuation reserve | Balance    | Note |
|---------------------|------------------|-----------------------------|------------|------|
| Finished goods      | 18,224,024       | -2,010,529                  | 16,213,495 |      |
| Work in process     | 25,120,646       | -3,007,636                  | 22,113,010 |      |
| Raw material        | 16,195,959       | -1,377,546                  | 14,818,413 |      |
| Material in transit | 1,274,668        | -                           | 1,274,668  |      |
| Total               | 60,815,297       | -6,395,711                  | 54,419,586 |      |

※ Based on consolidated financial statements

## D. Fair value estimation

Refer to 3. Financial Instruments by Category and 25. Financial Risk Management in 『III. Financial Affairs』.

## **IV. Management Discussion and Analysis**

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Management Discussion and Analysis section, reported in the full-year business report, is not included in the interim reports.

## V. Auditor's Report

### 1. Introduction

Samjong KPMG conducted a review and audit on the consolidated/separate financial statements of financial position of the Company as of March 31, 2023, and the related consolidated/separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the period then ended. The consolidated/separate financial statements for the period ended March 31, 2023, are presented fairly, in all material respects, in accordance with Korean IFRS 1034 Interim Financial Reporting.

Deloitte Anjin conducted audits on the consolidated/separate financial statements of financial position of the Company as of December 31, 2022, and December 31, 2021, and the related consolidated/separate statements of profit or loss, comprehensive income, changes in equity and cash flows for the years then ended and expressed an unqualified opinion on those financial statements.

All of the Company's subsidiaries received unqualified opinion for the periods ended December 31, 2022, and December 31, 2021.

## 2. Change of Independent Auditor

Upon termination of the contract with previous auditor, Deloitte Anjin, the audit committee has newly appointed Samjong KPMG as the Company's external auditor for three years from 2023 to 2025, in accordance with Article 10 (1), (3) and (4) of the "Act on External Audit of Stock Companies, Etc.". As a result, the Company's external auditor has been changed from Deloitte Anjin to Samjong KPMG from the beginning of this period.

There are 230 subsidiaries as at March 31, 2023. For the period ending March 31, 2023, 8 domestic subsidiaries, including Samsung Display Co., Ltd., changed external auditor from Deloitte Anjin to Samjong KPMG and SU Materials Co., Ltd. changed E&Y Hanyoung to Samjong KPMG. 30 overseas subsidiaries, including Samsung Electronics America, Inc. (SEA), changed Deloitte to KPMG, 65 overseas subsidiaries, including Samsung (China) Semiconductor Co., Ltd. (SCS), changed PwC to KPMG and 6 overseas subsidiaries, including Samsung Electronics Benelux B.V. (SEBN), changed E&Y to KPMG, Laos Samsung Electronics Sole Co., Ltd (LSE) changed KPP Co., Ltd to KPMG. Samsung Electronics Uzbekistan Ltd. (SEUZ), DOWOOINSYS VINA COMPANY LIMITED appointed KPMG, and Samsung Venture Capital Union SVIC No. 62 appointed Samjong KPMG as their new external auditors, respectively.

These changes in external auditors were to improve efficiency in audit of consolidated financial statements due to the change of the Company's external auditor. Appointment of auditor was decided at the entities' own discretion.

Details of change in subsidiaries' external auditors are as follows:

| Subsidiaries  | Previous auditor | Current Auditor |

Separate basis.

The approval decision is resolved by the Management Committee when the guarantee amount per transaction is between 0.1% and/or less than 2.5%, and by the Board of Directors when the guarantee amount per transaction is 2.5% and above.

SEC receives fees on the debt it guarantees depending on the maturity date of each debt guarantee, general loan interest rate, etc.

The Company claimed approximately USD 547 thousand in guarantee fees in 2022 and received it in 2023.

## 2. Acquisitions and disposals of assets with affiliates and subsidiaries

In 1Q23, the Company sold assets to affiliates, including Samsung (China) Semiconductor Co., Ltd. (SCS), to increase production capacity of such affiliates. Also, the Company acquired assets including facility equipment from affiliates to improve efficiency of production.

Separate basis

The above acquisition and disposal transactions of assets are not subject to the Board's approval.

1) Most recent transaction.

2) Properly calculated by an appropriate method based upon market value assessment. Transaction was made under normal conditions (eg, terms of cash payment within the 15th, 30th of the following month of transaction).

Transactions worth less than KRW 100 million were excluded according to Corporate Disclosure Guidelines.

### **3. Business transactions with affiliates and subsidiaries**

In 1Q23, there is no business transaction with affiliates and subsidiaries that are subject to public disclosure.

(KRW mil)

| Company | Relationship | Type of transaction | Date | Details | Amount |
|---------|--------------|---------------------|------|---------|--------|
| -       | -            | -                   | -    | -       | -      |

Separate basis; Transactions worth 5% and above of revenue of the current business year are subject to public disclosure.

## XI. Other Information

### **1. Changes in public disclosure**

- N/A

### **2. Contingent liabilities**

#### **A. Litigation**

The Company is involved in various claims, disputes, and investigations conducted by regulatory bodies, which arose during the normal course of business with numerous entities. Although the outflow of resources and timing of these matters are uncertain, as of the reporting date, the Company believes the outcome will not have a material impact on the financial position of the Company.

Samsung Electronics and SDC are liable to fulfill in solidarity the debts of SDC which relate to the periods prior to SDC's separation from the Company.

For information related to other contingent liabilities and commitments, see retained earnings in 『3. Notes to consolidated financial statements』 and 『5. Notes to non-consolidated financial statements』 in 『III. Financial Affairs』.

#### **B. Guarantees**

(USD thousand)

Consolidated basis.

Debt guarantees for SDN are provided by SDC, SAS by SEA, and DOWOOINSYS VINA COMPANY LIMITED by Dowooinssy Co., Ltd. SEC requires Board approval for individual guarantees exceeding 2.5% of total equity; the approval decision is delegated to the Management Committee when the guarantee amount is between 0.1% and/or less than 2.5%.

SDC requires Board approval for individual guarantees over KRW 10,000 million.

SEC claims fees on the debt guarantees depending on the maturity date of each debt guarantee, general loan interest rate, etc.: the Company in 2022 claimed approximately USD 547,000 as guarantee fee and collected the amount in 2023; and SDC in 2022 claimed approximately USD 3,080,000 as guarantee fee to SDN and has collected the amount in 2023.

### **3. Sanctions and others**

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Sanctions and others section, reported in the half-year and full-year business reports, is not included in the 1Q and 3Q reports.

### **4. Subsequent events and other matters**

Pursuant to the reporting guidelines set forth by the FSS of South Korea, the Subsequent events and other matters section, reported in the half-year and full-year business reports, is not included in the 1Q and 3Q reports.

## **XII. Appendix**
